

Ucla

Dear Council Member Paul Koretz,

My name is Matthew Taylor. I am part of the UCLA community where I was a player for the Men's Soccer Team from 2000-03 and then played professionally in Los Angeles and in Germany for 10 years. Currently I am the assistant coach for the UCLA Men's soccer team and I fully SUPPORT Tommy's Field.

This multipurpose field will be a great addition to Westwood Park and our neighborhood for the following reasons:

- It will be safe and durable, and perfect for our highly populated urban city.
- It will be accessible to everyone with a low unlocked fence and meaningful free play hours to promote unstructured play.
- It will accommodate local schools and leagues that have nowhere to play.
- It will update our park to support the fastest growing youth sports in our country.
- It conserve millions of gallons of water, a significant concern in our region.
- It will provide a much needed upgrade to the park and build a stronger sense of community around it.

Thank you,

Matt Taylor

Dear Council Member Paul Koretz,

I am a child clinical psychologist who works in Westwood and fully supports Tommy's Field. I have worked in Westwood for 12 years and have also lived in the area for 50 years. I am an active participant in the community in a multitude of ways and believe that community is so very important.

Developing underutilized space in our public parks to encourage free and unstructured play is extremely important in today's society. There are countless social, mental and physical benefits that athletics provide children, and if we have an opportunity to build a safe play surface that will inspire more children and adults to engage with their community and exercise, we are supporting a healthier society. Tommy's Field will motivate children and adults to get off of their technology and be active. It will give children an opportunity to build new relationships in their local park. It will support athletes and teams who can't find space in their own neighborhood for their growing programs.

Tommy's Field will honor a child who touched so many lives in this community and is a beautiful legacy that will remind people to enjoy life and play. This is a very special gift to our neighborhood and I highly recommend you support it.

Thank you,

Robyn Westbrook, Ph.D.

Dear Council Member Paul Koretz,

I am the Director of the Salvation Army Westwood Transitional Village located at 1401 S. Sepulveda Blvd. in Westwood Village, right across the street from the Westwood Village Park. Our community of families and children use the Westwood Village Park on a very regular basis as do I, with my grandchildren. I truly believe Tommy's Field will be a great addition to the Westwood Village Park for the following reasons:

- The Salvation Army Red Shield Community Center downtown has a synthetic turf field that is used by children and families for flag football, softball, soccer, kickball and frisbee games to name a few uses. I know how meaningful a space like this can be in our very urban and populated city.
- It is my understanding the field will be unlocked and promote unstructured play. With synthetic turf (which the childcare facility at my site playground has) this field can be used in all weather conditions. It also becomes less of a liability with synthetic turf as you won't have holes children can step in and fall, and it will be a more even playing surface for running and playing on. It is also safe and very durable. Many schools are now remodeling their athletic fields with this type of turf.
- It requires very low maintenance which means conserving water, and Staff's time to maintain the area. Perhaps it can even become a source of revenue for the Park District if the area was "leased" for athletic games.
- Soccer, which is becoming an incredibly popular sport for all ages and genders would benefit from having access to a space such as this for practice or to just a kick a ball around in or play catch. It would also make much better use of the existing area.
- It is my understanding a proposal has been made and full funding for development of Tommy's Field is available. This is a win-win for the Westwood Village Park and all of the children who do and will use it. I also understand that this honors a child from the community that was lost way too soon. I have always found it important to support these type of legacies that inspire a sense of community and benefits generations of families.

Subject: Tommy's Field in Westwood

I live in your district, along with my wife of 18 years and our two sons, and we both very much support the development of Tommy's Field at the Westwood Rec Center.

My wife and I have enjoyed using every area of the Westwood Rec Center for nearly 20 years, going back even before we had children (who are now 13 and 8 years old). We've played indoor adult intramural basketball and racquetball, we use the outdoor basketball courts, the great turf soccer field, and the always-open tennis courts. We also frequent Aiden's place and have enjoyed numerous picnics in the shaded tree areas both by the playground and near Veteran. We've even hosted several birthday parties at the tables when our boys were younger.

My perspective about Tommy's field is shaped by three undeniable facts:

- 1) The current open space field is and has always been used by the community primarily for athletic activities, from baseball and soccer to flag football and ultimate frisbee
- 2) Even with the current grass, the open space field is not suitable or safe for athletic activities due to the holes and general poor conditions for sports
- 3) There is more than enough green space all around the recreation center park for picnics, gatherings, events, and other non-sports/athletics related activities

Bottom line: the community already uses the open space for athletics. Let's make it a safe, beautiful athletic field that can better serve our needs.

Thank you!

Dear Council Member Koretz,

I have lived in your district since 1997 and I am writing to express my support for Tommy's Field. This multi-sport field with lights is a wonderful addition to Westwood Recreation Center and will benefit our entire district.

I am very familiar with the park and Recreation Center since I raised two sons who frequented the area for soccer leagues, playtime with friends, and multiple birthday celebrations. The area is an important part of the district and Tommy's Field will only enhance the ability for families to enjoy the entire facility. Many local families in your district will benefit from Tommy's Field.

Tommy's field will bring more visitors to the park, inspire all age groups to play and exercise in addition to bringing much needed energy back to the Westwood area. I urge you to support this inspiring project.

Thank you,

Justine Martin

Dear Council Member Paul Koretz,

St. Paul the Apostle School strongly supports the development of Tommy's Field in our nearby park, Westwood Park. The full size synthetic multipurpose field with lights will replace an area of the park with uneven and unsafe dirt terrain that is simply not usable for athletic activities.

Tommy's Field will be an asset to our athletic program that often needs additional space. In past years we have stopped renting the grass field at the park because it has turned into dirt with very little grass and is unsafe for the kids to play on.

Sincerely,

Keith Mortimer, Athletic Director

<joan.pelico@lacity.org>

Dear Council Member Paul Koretz,

Once a Soccer Mom, always a Soccer Mom. Both of our children learned to play soccer at the Westwood Recreation Center, but eventually had to join other soccer teams because of inadequate facilities. As a result, Westwood always had a less-than-robust soccer program. It took forever to get lights for the soccer field. Tommy's Field is the fulfillment of every soccer family's dream. And there are hundreds of such families right here in Westwood.

The process used to identify and implement community priorities has been transparent and democratic. At every PAB meeting the public has had the opportunity to discuss park priorities, and in 2012, it chose a master plan that reflected those priorities, *which included the dog park* and a large playing field in exactly the location now proposed for Tommy's Field. If opponents did not know about the proposed field, long on the wish-list for the Park, that is on them, not the City or the PAB.

Tommy's Field will be an asset not just to soccer players, but to the community, since studies have shown that active uses of public places keep them safe and attractive (Project for Public Space). The restoration of Bryant Park in Manhattan is an example of bringing activity to the park and saving it from a growing homeless encampment. It is a jewel now. This principal of active use is key to public space. What the opponents want, just like the Westwood Library Garden's original passive plan, will be a mistake. Tommy's Field will be place-making and a community experience that will enhance the park.

We fully SUPPORT Tommy's Field. This multipurpose synthetic field will be a great addition to Westwood Recreation Center and benefit our community for many reasons, including:

- It will be for everyone and provide meaningful free time hours for the community to engage in unstructured play.
- It will accommodate local schools and leagues that are desperate for athletic fields.
- It will conserve millions of gallons of water, a significant concern in our dry region.
- It will provide a much needed upgrade to the park and build a stronger sense of community around it.
- It will better utilize a large dirt area of the park that has more dogs on it than people, despite the new dog park.

Please support this worthy project and help Westwood's recreational program thrive.

Best wishes,
Laura and Jim Lake

Dear Council Member Paul Koretz,

The Coffee Bean & Tea Leaf has a store located at 1500 Westwood Blvd, Los Angeles, CA 90024. This location is approximately one block east of Westwood Recreation Center. We understand that a full-size synthetic turf multipurpose field with lights is being considered at Westwood Recreation Center and would like to express support for this development.

We believe that the development of Tommy's field will bring more activity and special events to the park, create a stronger sense of community in the area, and bring more patrons to businesses along Westwood Blvd.

We were notified of Tommy's Field back in October 2018 and expressed verbal support at that time. We would be happy to be part of whatever opening even may occur, subject to availability.

Best Regards,

Subject: Tommy's field

Dear Council Member Paul Koretz,

I write to express my enthusiasm and full SUPPORT for Tommy's Field. This full size multipurpose field is an important addition to Westwood Park and our community.

- It will be accessible to everyone with meaningful free play hours that promote unstructured play.
- It will be safe, reliable and durable, and perfect for our highly populated urban city.
- It will accommodate local schools and leagues that are desperate for athletic fields and have nowhere to play.
- It will conserve millions of gallons of water, a significant concern in our region.
- It will provide a much needed upgrade to the park and build a stronger sense of community around it.
- It will honor a child who spread joy for all sports across our community. His passion for life will forever be honored by this field and inspire others to play. This is what community is about.

As a kid, the first point listed above is the most important to me. It sounds fun.

As a friend of Tommy's the final point listed above is extremely important and meaningful to me.

In addition to the list, my High School, the Geffen Academy, is located just across the street from Westwood Park, and having an extra field would allow us more opportunities to get permits and use the field for P.E. and sport teams, as well as to come over after school and get a 'break' and have fun.

Tommy's Field is a gift to the City of Los Angeles with funds raised by our community. No longer can this dirt field with holes sit empty and unused.

Appreciated,

Dear Mr. Shull,

I am in support of Tommy's Field. There is room for a multi use field and space for grass. The field may look nice now after all the rain, but without irrigation it will be a dirt patch in a few months. Over the last 15 years we have lived in the area, it usually looks horrible and seldom used. More field space surrounded by grass should make everyone happy.

We need more field space so kids don't have to drive farther away to practices and games. A park is for everyone, lets get an open field that honors a boy who loved sports. Like Aidan's place this field will bring joy to the many who will use it.

Dear Council Member Koretz,

I live in your district and am a parent at Warner Avenue School. I fully SUPPORT the development of Tommy's Field in Westwood Park.

Tommy's Field will help the Westwood Park fulfill the mission and vision of LA Parks and Recreation. Replacing the underutilized, hard dirt space with a desirable and useful turf field will provide our community with:

- a safe and welcoming space to play and have fun, exercise and stay healthy;
- affordable recreational and physical opportunities; and
- a safe, attractive, and well-maintained facility that reflects the public's needs and interests.

The park's focus is families, youth, and healthy communities. This is what Tommy's Field is all about. It will be an invaluable addition to the park and to our neighborhood.

The field will be safe and durable, playable rain or shine, and extremely appropriate for the urban city that we live in. The field will have a low fence and remain unlocked, allowing the community to enjoy it for free unstructured play. It will also accommodate the needs of youth teams in our community that currently drive hours just to find a decent field to play on. There is no field like Tommy's Field in our community, and we desperately need one.

Tommy's Field is funded by donations from our community, which is a testament to how much we believe in and support this effort.

Sincerely,

Natalie Furner

Dear Council Member Koretz,

My two children attend St. Paul the Apostle School located at 1536 Selby Avenue, Los Angeles, CA 90024. My family spends a considerable amount of time in your Westwood district, and I'm writing to express my support for Tommy's Field.

This full size multi-sport field with lights will benefit so many families, schools and leagues in this community and make much better use of the existing public space. The small group of park neighbors who oppose this project are not basing their arguments on facts and do not seem to understand that parks are meant to be full of kids and adults playing, not sitting empty because they believe it is their very own private "backyard." Tommy's Field is a beautiful gift to the City of Los Angeles that will honor a child, inspire others to play and help reinvigorate Westwood. Please support this very special project.

Sincerely,

Karina Kassai Catalano
Karina

Dear Council Member Paul Koretz and GM Recreation and Parks, Michael Shull,

I live in Westwood just blocks from Westwood Recreation Center, and I am one of the thousands in our community who donated to Tommy's Field and support its development at Westwood Recreation Center.

As you well know, Westwood Park is a very empty park. The current open space in the park has been underutilized for decades and is unsafe for any kind of meaningful play. The tennis courts sit mostly empty. The east end of the park is full of homeless encampments. Given this gift being offered to the city, it is unconscionable to allow the park to remain in this condition just because a small group of adjacent neighbors don't like having children play in the park.

The Department of Recreation and Parks chose Westwood Recreation Center as the most viable park in West Los Angeles for Tommy's Field. I trust their judgment and expertise far more than the park neighbors who think Tommy's Field is a "nice idea" but that is should "go somewhere else" and not in "their park." The city has modified Tommy's Field went through numerous designs times to meet the objections of these neighbors, and yet, despite all of the attempts to build consensus, they can't help but continue to argue and spread lies. They are NIMBY's who think the park belongs to them and consider other Westwood residents, like myself, to be "outsiders."

Tommy's Field will be a safe field that can be played on rain or shine. It will support all age groups. It will accommodate multiple sports and the needs of local children, adults, schools and leagues. The social, mental and physical benefits of this project are countless, not to mention the positive effect it will have on Westwood Village establishments.

I hope you support this project and not cater to a very small, but noisy, group of people who do not represent our larger Westwood community and who seek to have you represent their narrowly focused desires as opposed to the needs of the larger Westwood community.

Thank you,

Dear Council Member Paul Koretz,

My business, Western River Acupuncture, is located at 1321 Westwood Blvd. I am writing to express my support for Tommy's Field.

Upgrading Westwood Recreation Center with a new multisport field is an important contribution to our neighborhood. The field will replace a neglected and empty area of the park and benefit an increasing number of individuals, schools and leagues in our neighborhood. The nearby business community should see some benefit from the increased activity as well.

I am in the healthcare business and fully support upgrading public facilities to inspire children and adults to stay active and live healthy. Tommy Mark was my patient and he embodied what it meant to play, engage with one's community and embrace the passion and joy of sports. His legacy will inspire others to do the same, and I hope you will support it.

Thank you,

Hyun (Lisa) Kim

Hello Councilman Koretz,

Since I am clearly not the target audience for this soccer field I went with an open mind to the meeting at the park to listen to the discussion on Tommy's field to hear what anyone could possibly not like about putting in a new soccer field and doing a 1.5-2 million dollar improvement of the park.

A couple things that were said by the community members stuck with me that I thought are worth presenting here:

1. Playing Soccer or any sport is safer playing on Synthetic Turf that doesn't have divots and holes where children can twist an ankle. It is much more reliable and supports consistent programming in all weather conditions.
2. I am in favor of saving water, this is a constant issue in CA. Saving 2 million gallons of water a year is something that I think we can all agree is a major motivator in putting this in.
3. There are 2 unusable tennis courts and 6 in poor condition versus 6 in excellent condition is something that all tennis players would prefer.
4. Driving over I was sad to see a homeless encampment which is now spilling onto the park. We all know this is a huge problem for the city. It seems that putting in more lights, attracting more attention and people will have a secondary effect which is to naturally move their encampments elsewhere.
5. The mother who created Aidan's place stood up and said she had the same pushback when they wanted to install Aidan's place and now it is in constant use and enjoyed by many. She spoke about how improvements build community and we are in desperate need of community.

As with so many improvements in our community it seems that there is opposition from an audience that is not the target or live next to the park and feel it their personal property. Watching the community argue against it I couldn't help notice that a very small percentage of those people have possibly used the park except to possibly walk through or let their dogs relieve themselves. Parks and Rec has a responsibility to make the best use of our public spaces for the entire community and it appears we need more athletic fields where everyone can play.

It also seemed very clear that Parks and Rec is very eager to put in Tommy's field. It seems that some of the speakers with legitimate concerns will be involved in the final details that will

Tommy's Field

RE: Tommy's Field

Dear Mr. Koretz,

My name is Brian Haloossim and I grew up at Westwood Park. Through sports, I spent most of my childhood there as a participant in multiple leagues and camps. Later, I returned as a coach for my 4 children and several other community programs hosted there. I live in Westwood, send my kids to schools in Westwood, and even sat on the Board of Aiden's Place a number of years ago. Needless to say, I am very familiar with the park and this area.

We are friends with the Mark Family and significant donors to the soccer field project they are spearheading. The fact that so many members of the community financially supported this project is not only a testament to Tommy Mark's influence, its evidence of the enthusiasm shared to improve the property and create more opportunity for adults and children who yearn for such public spaces.

Over the years, Westwood Park has seen updates that have only enhanced the neighborhood. Many of these features have been added as a result of productive partnerships focused on serving the diverse needs of this area. Aidens

Place, which provides accessible playgrounds for disabled children exemplifies this point. That being said, as a frequent visitor of the park, lack of funds have resulted in neglected, unattractive, and even unsafe areas. The location reserved for Tommy's Field is exactly the kind of space that needs to be beautified with a productive alternative. This is a gift. A legacy that Tommy and his family will leave behind for years to come. A place to remember his spirit and for future generations to create memories. I also believe that this field will bring important exposure to the Park. Exposure that can help reinvigorate other programs there that currently are under-enrolled, or even worse, unknown to the very people they were formed to support.

Teddy Roosevelt said, "The nation behaves well if it treats its natural resources as assets which it must turn over to the next generation INCREASED, and not impaired, in value." This field will add value that will touch this community for decades to come.

Sincerely,

Brian Haloossim

Dear Council Member Paul Koretz,

I am in full support of the development of Tommy's Field. The Westwood neighborhood is in great need of a full-size multipurpose field. This synthetic turf field is both durable and safe, has lights, and will be perfect for the growing community. The use of synthetic turf will conserve millions of gallons of water and requires far less maintenance than a grass field. Additionally, the low fence around the field will keep activities enclosed while allowing for safe free play and public access.

As the Assistant Athletic Director at Marymount High School, I am constantly struggling to find available field space in our neighborhood. Other local fields are not the proper size, do not have lights, or close during rain due to grass field maintenance. Our high school students are losing opportunities to exercise, and work toward a future in athletics, due to lack of accommodations in our area.

In an era of sedentary lifestyles in front of screens, we are trying to promote outdoor, healthy lifestyles to our youth but are desperate to find parks and open spaces to accommodate this push. Trends of children in athletics heading into high school are greatly increasing. In order to strengthen their drives and passions, we need to find a space that can help us fulfill their needs. Tommy's Field is a significant step toward doing this.

This field will not only allow our children to have a safe, local park to exercise while promoting health and wellbeing, but it will also give families, friends and locals a chance to support athletics as well. A space that provides fresh air, public access, and brings about a sense of community is long overdue in Westwood.

Sincerely,

Erin Diamond

To Whom It May Concern:

My name is Rudy Figueroa, Sr. Associate Director UCLA Recreation, and I'm writing on behalf of our experience converting our UCLA Intramural Field to a synthetic turf from a natural grass field. Our conversion to synthetic turf allowed us to increase our student programming which has always been a growing need without shutting the field down for a maintenance period of up to 3 months. There was also the positive sustainable impact on our community with the saving of hundreds of thousands of gallons of water and minimizing the budget constraints of needing a grounds staff and crew to manage the field were significant reasons why I would recommend a conversion. After our assessment of actual use we also noticed a decrease in ankle and knee injuries as our field were void of any pot holes or low spots due to use and weather impacts. All of the positive impacts combined have been a significant improvement for our uses here on campus that would definitely minimize any negative impacts from having this synthetic turf field. If you have any questions you can reach me by email: rfigueroa@recreation.ucla.edu

Sincerely,

Rudy Figueroa

Dear Council Member Koretz,

I live in Westwood and I **SUPPORT** the development of Tommy's Field at Westwood Park and Recreation Center. I am a parent whose two children attended local public schools and grew up playing on the playground at Westwood Rec most weekends. However, when it came time to play outdoor team sports, my children had to look elsewhere, because we have no public parks with dedicated field space here in Westwood that support the most popular team sports today – soccer, lacrosse and flag football.

Baseball is well supported in our area, but soccer uniquely offers a first sports opportunity for girls, sparking an early habit of outdoor exercise and athletics, with all the benefits that come from that. Soccer not only provides exercise and team sport benefits, but uniquely provides the opportunity for girls in significant numbers to become collegiate athletes and professional players - a dream that has only existed for boys in a meaningful way in the past.

Building Tommy's Field acknowledges today's reality - that the success of our U.S. Women's Soccer team in the Women's World Cup has and will continue to inspire boys and girls alike to engage in athletics and active play, and our community should be preparing to accommodate.

Tommy's Field is offered as a gift to the City of Los Angeles, with funds raised from Tommy's and his family's community - longstanding Westwood residents - with no strings attached. It honors the memory of Tommy Marks, a boy who attended school and lived right here in Westwood. Tommy was an avid soccer player who brought so much joy to sports and passion to life, and whose impact has deeply affected our community. Mobilizing to make Tommy's Field a reality has been a healing event for the many parents and children in our local community who have been affected by Tommy's loss.

Dear Council Member Paul Koretz,

We live in your district and strongly support the development of Tommy's Field.

Tommy's Field will be accessible to everyone with an unlocked fence and meaningful free play hours that promote unstructured play.

Tommy's Field will accommodate schools and leagues that are desperate for athletic fields and have nowhere to play.

Tommy's Field will conserve millions of gallons of water, a significant concern given our history of drought conditions.

Tommy's Field will make much better use of an extremely vacant dirt space that has been neglected and underutilized for decades.

Tommy's Field will honor a child that is from our community and inspire generations of other children to play.

Thank you,

Tiffany & Gary Sacks

Re: Tommy's Field at Westwood Park and Recreation Center

Dear Council Member Koretz,

I live in your district and I **SUPPORT** the development of Tommy's Field at Westwood Park and Recreation Center. Please know our family lives in the Westwood Hills and have been going to the park for over 15 years. My children also play club soccer, as you know field space is limited all over Los Angeles, what better way to turn the existing dirt field into a soccer field that everyone can benefit from!

Tommy's Field is offered as a gift to the City of Los Angeles, with funds raised from Tommy's and his family's community - longstanding Westwood residents - with no strings attached. It honors the memory of Tommy Marks, a boy who attended school and lived right here in Westwood. Tommy was an avid soccer player who brought so much joy to sports and passion to life, and whose impact has deeply affected our community. Mobilizing to make Tommy's Field a reality has been a healing event for the many parents and children in our local community who have been affected by Tommy's sudden loss at a young age.

The existing space is unusable for kids to play. Most of the year that space is hard dirt, or mud. Even now when there is grass, nobody uses it because it's soaked with mud and full of ruts. Tommy's Field will be safe and durable, playable rain or shine and appropriate for the urban city we live in. The current space is unusable and underutilized, and has been for decades. Given our Southern California climate and regular drought conditions it is vital that we save the millions of gallons of water that this field will allow.

Tommy's Field will provide a safe and reliable space for families, schools and athletic programs to grow in our community, exercising outdoors and helping to combat current epidemics of obesity and depression. Beautiful fields encourage our youth to get out from behind their screens and engage in healthy activities, like playing sports in their local park.

I ask for your support for Tommy's Field. Tommy's Field will be for everyone. Our parks serve our entire community, not just the immediate neighbors who complain that they don't want more people coming to "their park." There is no opposition that should counterbalance all the good that will come from it.

Sincerely,

to Michael.a.shull, Jasmine.shamolian, bcc: Nikfreemark

Council Member Koretz:

Westwood Park has played host to my family (children currently aged 11 and 8) through recreation center-organized basketball and baseball, AYSO-sponsored soccer, STAR-sponsored summer camps and countless weekends at Aiden's Place. This is our extended backyard, our place to be a family and re-ground ourselves when work, homework, business travel, and the speed of life happens. We completely cherish the value this park brings to hundreds of families in the community and what it represents to bring people together in a safe environment. **Because of this, we absolutely support the building of Tommy's Field as a fantastic and much-needed addition to this community space.**

Inb Tommy's Field is a perfect addition to this park as a place for exercise, camaraderie, family, **ox** wellness, healing and solace. As a steward of the community, Council Member Koretz, I strongly encourage you to vote in favor of the building of Tommy's Field - a gorgeous, privately-funded, multi-purpose field that had already been in the development plans.

This would be a field for those families who want a safe place - not pot-holed and dusty – to kick a ball around, play lacrosse, throw a football, pitch a baseball or just play tag during the free play hours.

This would be a field that answers to a thriving community of athletes in desperate need of athletic fields to hone their skills.

This would be a field that would help heal a family and a larger community of friends still grieving every single day for their sudden loss of a 12-year old boy.

This would be a field that the community desperately needs since there is such an enormous shortage of soccer space.

This field would represent the diversity and ever-changing landscape of Los Angeles in a way that is only for the better.

This field would help foster our children's holistic growth as the next generation of community and business leaders.

I attended the Park Advisory Board meeting on May 7 and heard first-hand the strong opposition to this building of this space from individuals who believe it is "their" park. They argued that the turf is cancerous, that there would be no green-space left. They complained

that there was no place to fly a kite, do bottle rockets or let their dogs run free. They claimed that they had absolutely no idea this was in the works for the past year and they were blindsided (perhaps be involved in the community a bit more?). They offered their sympathies to a grieving family and followed-up with "...but my family doesn't play soccer...". They argued that there was space in the Valley, the VA, Culver City, Playa del Rey, Marina del Rey so "why don't you play there"... in other words, go ahead have your fields, but Not In My Back Yard.

While some of the points may have been valid, I truly believe the key underlying issue is that those who came and voiced their opinions were homeowners who do not want the stereotypical soccer-types to come in droves to "their" beautiful park, play with their children and grandchildren, and integrate with what they know to be their idyllic and homogeneous world.

After the meeting, I was speaking with one of the coaches from a local team and an older man came up to us and engaged:

Man: Are you for or against this field?

Me: For, and this meeting was really a great forum for people to understand both sides.

Man: (shaking head dismissively) Jews don't play soccer. It's all those other people that play soccer and they'll be coming here all the time if a field is built. All those Hispanics. We don't need that here.

Me: (flabbergasted) No, you'd be surprised how many Jewish kids play soccer, and the US soccer community is growing larger and larger each year. Sports and organized teams help kids get out and play more instead of falling into a sedentary lifestyle.

Man: (again, dismissively) We don't need that here, I've walked this path since the 80s and I'm fit and people in that room could have used some exercise. Did you see how fat some of them were? They can walk around the park like I do.

I was totally appalled and saddened. Appalled that our kids still live in a community where people feel that way, and saddened because opinions like those will only denigrate - instead of build - the community we love so much. After that exchange, **I am even more convinced that this field is so critical for the development, collaboration and integration of our diverse and global community.**

Are we a soccer family? Absolutely. Our children learned to love the sport when we lived in London and have played organized and club soccer for the past 5 years since we returned to LA. Do we drive hundreds of miles each week to take them to practice and games? You betcha. We do this because it is so important that our kids understand teamwork, balancing priorities, the payoff of a job well-done, and finding opportunities to grow through defeat. They play team sports to help teach them how other people who don't look like them are just as kind, compassionate and funny and have the same concerns no matter what color their skin is or what religion they practice. Soccer makes this happen and Tommy's Field and the people who will come to play there - either as part of an organized team or during the free-play hours - will only continue to enable these kinds of conversations and lessons with other families.

My family and I have been a part of this community for several years and have always believed that for families and children to thrive we all need to understand 1) that change is positive, 2)

the fundamental need to reconnect with each other outside the institutions of school and work, 3) that it is so important to be outside playing safely instead of inside playing video games when possible and 4) that it is our responsibility to expand our children's perspectives outside of the confines of our bubble and appreciate the culturally-rich community of which we are so fortunate to live.

Council Member Koretz, I implore you to please vote to build Tommy's Field so this generation of kids and generations to come may enjoy the space and help the community thrive.

Yours truly,

Nicole Marliani

Dear Council Member Koretz,

I am writing on behalf of FOX Sports, which is headquartered in your district. FOX Sports **SUPPORTS** the development of Tommy's Field at Westwood Park and Recreation Center.

1. Tommy's Field will support and accommodate soccer and lacrosse, the fastest growing youth sports in our community and country. It will also accommodate football, the most popular sport in our country. We need to update and evolve Westwood Park's infrastructure to support these growing trends.
2. Tommy's Field acknowledges the fact that the Women's World Cup inspires girls and celebrates women in sports. Our internationally acclaimed U.S. Women's Soccer team inspires communities to engage in athletics and active play, and our community should be preparing to accommodate. In supporting Tommy's Field, our two Los Angeles professional soccer franchises, LAFC and LA Galaxy are collaborating for the first time to benefit youth sports and our entire community.
3. Tommy's Field is a gift to the City of Los Angeles, with funds raised from Tommy's and his family's community, longstanding Westwood residents, with no strings attached. It honors the memory of Tommy Marks, a young boy and avid soccer player who brought so much joy to sports and passion to life, and whose impact has deeply affected our community. FOX Sports is proudly a part of the financial support for this project in memory of Tommy to benefit kids in our community.
4. Tommy's Field will provide a safe and reliable space for families, schools and athletic programs to grow in our community, exercising outdoors and combating current epidemics of obesity and depression. Beautiful fields encourage our youth to get out from behind their screens and engage in healthy activities, like playing sports in their local park. We at FOX Sports fully support these goals.

Thank you,

Claudia Teran

Subject: In support of Tommy's Field

Dear Council Member Paul Koretz,

Please allow the building of Tommy's Field. Unlike Tommy, my three kids are not soccer players – but they practically grew up at Westwood Rec. They spent countless hours playing at Aidan's Place. My twin girls took their first ballet class there when they were five-years old and twice participated in the most darling recitals in the gym. My son went through the kids basketball league before aging out. All three of them learned to play tennis there, in lessons after school and at the park's tennis camp. The girls still catch the bus to middle school in the parking lot. We bring our Saint Bernards to the dog park. In short, this park was, and continues to be, a big part of our lives. We love this park, and we know it well—including its problems. But this letter is not about the homeless encampments, though, it is about the proposed site for Tommy's Field.

I walked the proposed area last week to get a sense of how Tommy's Field would affect the park. I always assumed there were never more than a handful of people on the field because it has always been covered in dead grass and dirt. The problem is worse than aesthetic. The field is uneven and riddled with holes. I have two witnesses to the fact that I almost broke my ankle when I accidentally stepped into one of those holes. It's just too dangerous to play sports on. It's even too dangerous to take a leisurely stroll. How wonderful it will be for kids to have a level and safe playing field on which to play sports or even just a game of tag.

Of course we all want our kids to play on live grass – but this is Southern California, and we need to adjust to the realities of climate change and the drought. The grass is green now for the first time in years. When summer comes, it will die and not reappear until we get lucky with another wet winter—which we all know, could be years away. It seems like an easy choice: an uneven, unplayable field with grass that is perpetually dead vs. a safe, well-maintained, well-lit playing field that our community can use year-round. I urge you to support Tommy's Field and don't be swayed by the few opponents, who mostly live around the park. The park is for the community, not just those living within one block of it. Thank you.

Dear Council Member Paul Koretz,

I live in your district and fully support the development of Tommy's Field at Westwood Park and Recreation Center. Developing a multipurpose field with lights in the center of the park will improve safety and make much better use of the existing space that has historically been mostly dirt and holes. We need to upgrade our parks to accommodate our growing population and demand for field sports like soccer, and given Tommy's Field has been 100% funded by the community, this is a perfect solution. The push back seems to be from community members that are uninformed about how the field will be open to everyone, not just those participating in private soccer clubs. There is no cost to the community, it's a win-win for all!

Our kids deserve better sports accommodations in West LA and Tommy's Field not only provides a safe and open space, but honors someone who exemplified the spirit of joy, giving to others and providing opportunity to follow your dreams.

Thank you,

Dear Council Member Koretz,

I am writing to you in support of Tommy's Field in Westwood Park. I have lived in Los Angeles my whole life and grew up in West La. I spent a lot of time as a kid at Westwood Park. It was a convenient place for my family to go however the grass was never great and there were always dangerous holes.

Tommy's Field would be a perfect place for a kid like me to have had growing up. It would have provided my siblings and I with a space to play freely without having to join a league. This is so important for many families who don't have the extra funds to pay for soccer leagues but still want to let their kids enjoy the sport. I can't stress how important a space for free play is especially during a time when time outside is lacking and screen time is increasing.

I have known the Mark family for almost 10 years. I started babysitting both Tommy and his brother Donovan when I was in high school. Tommy was such a special kid. He had charisma and wit beyond his years and as I grew older and went to college I still heard stories and would even chat on the phone with Tommy. This field is such a perfect way to honor his legacy. Tommy was not only a dedicated soccer player but from what I've heard also an extremely present member of his young community. Tommy's field would speak to that by providing the community with not only a soccer field but a place for his peers to run around, toss the ball, and enjoy the outdoors.

Sincerely,

Jamie Feiler

Thu, May 23, 2019 at 11:41 AM

Dear Council Member Koretz,

I am writing to support the effort for Tommy's Field in Westwood Park. My name is Ethan Mark. I am Tommy's older brother and can attest to the fact that his spirit and passion for sports, both in the context of structured competition AND free play/schoolyard pickup, was absolutely infectious—unlike anything I've ever witnessed. He was an absolute star on the soccer field, but found immense joy in leading other kids to succeed and have fun while playing. He was the type to have a wide open shot on goal, but pass the ball back to another kid who didn't get as much action so they could have a chance to score. Afterwards, he'd give a big hug or high five to his teammate, whether the ball went in or not.

However, I'd like to make it clear that my support for this project does not solely stem from honoring my brother through a field in his name. As a 26 year old who was born and raised in the area, and also grew up playing sports my entire life, I found that there was hardly anywhere I could go (by myself or with friends) to kick a ball, throw a frisbee, or join any type of pickup game that required a half-decent field. Finding even a quarter-size field of well maintained grass or turf that I could just juggle a ball or kick around with friends that didn't require a permit or gate code was like striking gold as a kid. Frequently I was stuck climbing fences only to be kicked out 15 minutes later. Later in life I gave soccer lessons, and after one session at the current patch dirt and clumpy grass it became clear that Westwood Park was not a viable option. That led to driving to Beverly Hills, Mar Vista, etc. without guarantee that we'd have luck there.

I would absolutely love it if younger generations weren't faced with the same dilemma as I was, and this field is a massive step in the right direction. The notion that this will be another field that is only accessible through leagues or private permits is antithetical to the whole endeavor, and it is certainly not what anyone in my family, especially Tommy, would want. The mission is to get kids outside playing with one another in any capacity, any sport, any level of competition. I implore you to approve this project, as I know in my heart of hearts that it will have a wholly positive effect on our community, for kids and adults alike.

Thank you so much for your time and consideration.

Sincerely,
Ethan Mark

Dear Council Member Paul Koretz,

My name is Alex Gold and I live in your district and am a supporter of Tommy's Field. This multipurpose field is an important addition to Westwood Park for the following reasons:

- It will be safe and durable, and will support the physical activity needs of more people in our community.
- It will be accessible to children and adults with meaningful free play hours that promote unstructured play.
- It will accommodate local schools and leagues that are desperate for athletic fields and have nowhere to play.
- It will conserve millions of gallons of water, a significant concern in our region.
- It will provide a much needed upgrade to the park and build a stronger sense of community around it.

Tommy's Field is a gift to the City of Los Angeles with funds raised by our community. It is a very meaningful project to us and it will benefit our neighborhood for generations to come. I hope you will consider the reasons listed above.

Thank you,

Name: Alex Gold

C/O Joan Pelico
5th Council District, City of Los Angeles
200 N. Spring Street, Room 440
Los Angeles, CA 90012

Dear Councilmember Koretz,

The LA Galaxy are proud to show our support of "Tommy's Field". We know that in Los Angeles there is a need for safe places for people to come together as a community to play soccer. We are thankful for the dedication of the Mark family and the Tommy Mark Memorial Fund to create a lasting legacy for Tommy that will allow countless others to share his love of soccer.

All of us in Major League Soccer have seen the excitement of team rivalry, but this field will be a special project for both the Los Angeles Football Club and the LA Galaxy to show our overarching commitment to the advancement of the sport at the youth level. A collaboration – and co-branded field- supported by LA Galaxy and LAFC, will set a precedent throughout the Southern California soccer community, as well as across the country, and signal that the time has come to work together with our community to spread joy of the sport and support a creative approach to youth development.

To date the LA Galaxy are proud to have collaborated to install nine soccer fields in Southern California from Santa Anna, to Hawthorne, to Los Angeles City. The benefits each community sees after the field is complete is astonishing and fuels our desire to continue to build spaces that so greatly impact the community.

Should you have any questions about our commitment to the Tommy Mark field project, past projects, or our support of youth soccer, please do not hesitate to reach out to me at 310-630-2211.

Go Galaxy!

Sincerely,

Chris Klein

Mike Eveloff
Westwood Rec Park Advisory Board

Dear Westwood Rec Park Advisory Board,

Los Angeles Football Club is committed to providing safe and accessible recreational opportunities for all Angelenos. LAFC, the LAFC Foundation and LA Galaxy Foundation have partnered with the Tommy Mark Memorial Fund and our collective community to build this co-branded full-size soccer. A critical asset for our youth and our community. "Tommy's Field" will honor the memory of 12 year old LAFC Academy and LA Galaxy Academy player, Tommy Mark, who we lost unexpectedly earlier this year. Tommy's Field will be for everyone and a place where Tommy and his passion for soccer, and all sports, will forever be remembered.

Please join us in supporting and approving this essential project and generous gift for all of Los Angeles. Cheers to Tommy!

Best,

Dear Council Member Koretz:

My name is Doug Mark and I am a second-generation resident of District 5.

My father attended Rosewood Ave. Elementary and John Burroughs Jr. High, graduating from Fairfax High in 1936.

I attended Warner Ave. Elementary, Emerson Jr. High and University High, graduating in 1976.

My late son Tommy, for whom the Field is named, graduated Warner Ave. in 2016. His brother Donovan graduates from there next month.

When I was young, we had no fields for our football games in the Westwood area. Our sole recourse to find grass for free play was to "sneak" onto the UCLA athletic fields and hope we didn't get kicked off.

In 1989, I saw that Westwood Park and Rec Center had been developed south of the Federal Building and commented, "nice gym (I played and coached my oldest son in hoops leagues there), tennis courts, outdoor basketball...why is this big 'grass' area such a mess?" Dirt and ruts and mud and weed.

Years later, in 2011, I brought Tommy to that space to participate in a soccer clinic. You could not bounce a ball to perform little kids' drills, because the surface was too muddy and rutted. The clinic promptly moved to the University of West LA in Culver City. Any sports coach or physical trainer will give you the same explanation for the lack of use. That surface remains, essentially, empty for 30 years...and we have photographic and other evidence to prove it.

While the Tommy's Field opponents are inventing a history of "green space" and kids playing, simple observation and inquiry will immediately advise of the falsity of their claims. Frankly, I am blown away by their willingness to deny the longstanding reality of that space. This is, and when you scratch the surface (as I have) you will quickly discover, a simple (and admittedly understandable) case of "NIMBY." A new and diverse array of familial and athletic usage, refs' whistles, lights...to me it's progress and beauty and outdoor exercise, not crowds and "outsiders."

I see existing turf fields on weekends, such as Pan Pacific Park, Aviation Park in Redondo Beach, Playa Vista, and they are in use by kids and trainers and dads and teens and folks are running and jumping and playing and getting fit. This is absolutely not the case at the site of Tommy's Field.

In 2015 or '16, my wife Nikki Mark went to the park and inquired about that space. The park told her that the City does not have water or maintenance resources to maintain an even, grass surface, but that they have an approved "master plan" from 2013 that provides for a turf field in that location.

Subject: Tommy's Field

Dear Council Member Paul Koretz,

I live in your district and support the development of Tommy's Field at Westwood Recreation Center.

This particular park needs an upgrade. The current open space has been underutilized for decades and remains unsafe for any kind of meaningful play. The tennis courts sit mostly empty. The east end of the park is full of homeless encampments. More dogs run off-leash in the middle of the park than people. Given this gift being offered to the city, it is unconscionable to allow the park to remain empty because a small group of adjacent neighbors like it this way.

The design for Tommy's Field has been modified numerous times to meet the concerns of neighbors, and yet despite all of the attempts to find consensus, the neighbors continue to resist and argue. They think this park is "their backyard" and they have made it clear that they don't want "outsiders." Clearly, they don't understand that Community Parks serve a five-mile radius and that they are meant for people to play in. Nor do they appreciate that the city designs our parks, not neighbors.

I hope you will support Tommy's Field and not cater to a small group of people who do not represent our larger Westwood community and simply fear change.

Thank you.

Please note my home address is 538 Loring Ave, LA 90024

Best wishes,
Harley Liker MD,MBA

Subject: Tommy's Field

Dear Council Member Paul Koretz,

I work in West Los Angeles as a child and adult psychotherapist. I cannot stress the importance of the psychological benefits associated with kids engaging with others, building healthy relationships and partaking in physical activities - all of which Tommy's Field will support.

I understand that this synthetic multipurpose field with lights will be unlocked and available for free play, and it will be for everyone in our community to enjoy. Taking underutilized space in our public parks to encourage free and unstructured play is extremely important in today's society. Tommy's field will inspire children and adults to get off of their technology and engage with one another in person. It will give children an opportunity to build new relationships in their local park. It will support athletes and teams who need more space to play and stay active. I think this is a wonderful addition to our neighborhood and I highly recommend you support it.

Thank you,

Alison Haber, LCSW
10780 Santa Monica Blvd

IN FAVOR of Tommy's Field at Westwood Park

We, as residents of the area, attended the Westwood Rec Center meeting on May 7 where the dominant subject was the building of the new multipurpose field. We appreciated the great thought and research that went into presenting the plan — and also the incredible amount of due diligence that has been done on the project; from efficient use of these raised funds to cost effectiveness and environmental/health research.

As was presented by the city and park board, it is clear the space in consideration has been difficult and costly to maintain in its present condition for decades. It is mostly an uneven, parched patchwork of ground with extremely limited possibilities and injurious conditions.

It is clear that a long-range park plan for good of the community has been in the works for years, with portions of it being made real as time and money allow. It was apparent to us that a field of this sort has been on the horizon, and, with the generous donations, in memory of a terrific young man, an active community member who died suddenly and too young, it can now come to fruition.

The fact that many attendees at last night's meeting never concerned themselves with this park plan or attended any prior meetings is the typical story in Los Angeles. It was odd to see how those who were riled up felt as if they had no ability to participate in the process — but until last night I'm sure none of them had ever seen the inside of that meeting room.

Also, our take-away was that Park Advisory Board Meeting on May 7th was the process in action. All the details a smaller group had gathered were instrumental in relaying to the public, not done for deceit! Without those facts, it would have been a meaningless exchange.

There are approximately a dozen parks on the westside, all within a few mile radius - Holmby, Cheviot, Clover, Roxbury, Mar Vista are only a few. These, and the others, have "green space" and undeveloped "play space" too. And tennis courts. They are very close to all of us who live in the Westwood area. But there is NO top class multi-purpose field — especially one that is regulation size for soccer. The dirt where the proposed multi-purpose field would be developed has been underutilized and sitting empty for decades. Tommy's Field is an opportunity to build a TOP class multi-purpose field for all. With an unlocked gate, a low, merely protective fence and Free Play hours clearly envisioned, the field will service our entire community, including but not limited to those who live next to the park.

Similarly, everyone will have access to this field for both friendly and competitive games. Southern California is where the best young athletes come from and those of us, — and our family is one of thousands — who have to drive endless hours to play on "real" soccer fields or "real" baseball fields know the drain on time, expense of gas, and general stress it creates.

The lack of facilities on the Westside of L.A. is a wasteland for young athletes. There is virtually no where to play. No teams come to us. No tournaments are held here. Nothing — compared to the Orange County, San Diego, South Bay or Inland empire field space that exists. These are the places

Westside families have to drive weekly, if not daily. We desperately want a full-size field like this to foster our own sense of community and serve the need.

The multiple options of close, rhapsodized, green space for all — versus the lack of field space for kids to play sports — is a huge disparity. Having ONE additional, regulation size field is hardly unreasonable. It won't solve the long drives all of the time, but perhaps once in a while, hard working families who commit themselves to their children's sports endeavors, can get a break.

Most important in all: Westwood Park HAS a great deal of grassy space adjacent to Veteran Av. — from just north of Ohio to just south of Wilshire and likely twenty-five percent of the land mass to the west. This area seems to be forgotten by those who claim that if the multi-purpose field is realized, there won't be any free play area or green space.

The fact is that portions of that area are now inhabited by homeless tents and encampments. It would behoove the city and the park to take action to get those illegal dwellings removed and assure (perhaps via a security guard, a good use of any of the excess money raised--as mentioned at the meeting—over and above the cost of the field) that they do not return. They inhibit the use of that space by their occupation and waste products - both human and garbage. It is odd how all that land seems to be forgotten about in this discussion. The voices against the field should rally around cleaning up that area. There is plenty of unused, undeveloped green space there — the homeless have found it.

With regards to any parking issues: the large lots could be reconfigured. Much like the parking at Cheviot Rec Center where there are multiple rows of diagonal parking, the parking spaces at Westwood could be designed in this way. It is easy to see how the capacity could be doubled.

Additionally, perhaps on the weekend the Federal Building parking lot could be used.

Also, if a parking kiosk was put in and a minimal charge per entry of \$2-\$3 was introduced, cost of its installation would be covered — the fees detracting from long term parking abuse, as well as financing a security guard for the lot — or to rove and protect the new bathrooms and Veteran adjacent green space of encampments.

This multipurpose field is a win-win. It is being constructed with vetted, safe materials. It will require low maintenance and enables water conservation. It is a place that can be used by anyone for any reason. The soccer permits would likely only be needed in the late afternoon and evening during the week, most of the day would be free for younger kids and family use or older adults to lounge, picnic or fly a kite. And soccer is heavier in certain seasons, so weekend permitting would likely vary — allowing for plenty of community usage on weekends as well.

Finally, we live in an urban area — with a large population and plenty of noise. That is just the way it is. There is progress. The fact that we have so many, well maintained parks in Los Angeles that serve as a respite in this busy city is fantastic. And the dream that kids can come together, in their neighborhood, on a professional field and play soccer, when there is such limitation on that in West L.A. — well, the life, leadership and healthy lessons available in that experience are ones that are invaluable in forming Los Angeles adults of tomorrow.

And the inspirational story, that our community raised 100% of the money to honor a child, lift up a grief-stricken family and provide a place where generations of children and families can play, is a story we can all hear again and again.

Subject: Tommy's Field - Westwood Park

Dear Council Member Paul Koretz,

I live in your district and fully support the development of Tommy's Field at Westwood Park and Recreation Center. Developing a multipurpose field with lights in the center of the park will improve safety and make much better use of the existing space that has historically been mostly dirt and holes. We need to upgrade our parks to accommodate our growing population and demand for field sports like soccer, and given Tommy's Field has been 100% funded by the community, this is a perfect solution. The push back seems to be from community members that are uninformed about how the field will be open to everyone, not just those participating in private soccer clubs. There is no cost to the community, it's a win-win for all!

Our kids deserve better sports accommodations in West LA and Tommy's Field not only provides a safe and open space, but honors someone who exemplified the spirit of joy, giving to others and providing opportunity to follow your dreams.

Thank you,

Kasi Beaney

To: Michael.a.shull@lacity.org, Jasmine.shamolian@lacity.org

Dear Council Member Koretz,

I live in your district and am a parent at Warner Avenue School. I fully SUPPORT the development of Tommy's Field in Westwood Park.

Our family spends a lot of time in Westwood Park. We are there several times a week in fact. It is a beautiful and special place where kids and families of all ages and backgrounds come together to play, picnic, enjoy sports, etc. I'm not sure why we wouldn't all want to build it out further. We have an opportunity here to take unusable land and turn it into a nice space that all can enjoy.

More importantly, at least to me, is the incredible message that it would send to our community if we built and supported this field. We are supporting the message that even in time of loss and unimaginable tragedy, we can all come together and do something positive as a community in memory of a beautiful child.

Tommy's Field is funded by donations from our community, which is a testament to how much we believe in and support this effort.

Sincerely,

Name: Alison Markatos

RE: Tommy's Field

Dear Michael:

I am writing you to express my strong support for the development of Tommy's Field in West Los Angeles.

My wife and I and our 3 boys (ages 15, 12 and 8) have spent many evenings and weekend afternoons in search of a proper sports field on which to play in West Los Angeles. As you may know, the area being considered for Tommy's Field has been occupied by mud and dirt for the last 30 years, which has not presented the public with a viable option. I could not think of a better use of the space than to convert it into a beautiful new sports field.

Sports teach children a multitude of life lessons - the values of teamwork, the importance of practice and preparation, sportsmanship, humility in victory and graciousness in defeat. Of course, there are also the many benefits associated with children being physically fit, particularly in this day of excessive computer game play and mobile phone use.

Tommy Mark was a shining example of what a child can bring to and derive from participation in sports. Tommy was an elite soccer star who was recognized by his many teammates and opponents. Tommy played for Academy teams for both the Los Angeles Galaxy and LAFC. The sky was the limit for Tommy.

What better way to honor Tommy's memory and to give the children of Los Angeles a place to play sports than to create Tommy's Field.

Thank you in advance for your consideration.

Best regards,

Sincerely,

Paul Friedman

Dear Council Member Paul Koretz,

I live in your district and strongly support the development of Tommy's Field.

Tommy's Field will be accessible to everyone with an unlocked fence and meaningful free play hours that promote unstructured play. Tommy's Field will accommodate schools and leagues that are desperate for athletic fields and have nowhere to play. Tommy's Field will conserve millions of gallons of water, a significant concern given our history of drought conditions. Tommy's Field will make much better use of an extremely vacant dirt space that has been neglected and underutilized for decades. Tommy's Field will honor a child that is from our community and inspire generations of other children to play.

Thank you,

Gwen Litchmann

Dear Council Member Koretz,

As 20-year residents of the Westwood-area community, we fully SUPPORT Tommy's Field. This multipurpose field will be a great addition to Westwood Park for the following reasons:

- It will be safe and durable, and perfect for our highly populated urban city.
- It will be accessible to all with meaningful free play hours that promote unstructured play.
- It will accommodate local schools and leagues that are desperate for athletic fields and have nowhere to play.
- It will conserve millions of gallons of water, a significant concern in our region.
- It will provide a much-needed upgrade to the park and build a stronger sense of community around it.

Tommy's Field is a gift to the City of Los Angeles with funds raised by members of our community such as ourselves and it will benefit everyone for generations to come.

Thank you,

Andrew & Patricia Winograd

Please Build Tommy's Field!!!

Adam Weene <aweene@saban.com>

To: "Michael.a.shull@lacity.org" <Michael.a.shull@lacity.org>

Cc: "Laura Brand (laurabrand2@gmail.com)" <laurabrand2@gmail.com>

Dear Council Member Koretz,

First, thank you for all you do for our community!

I write this email to strongly support the building of the multipurpose field at Westwood Park. There is so little field space in the city, and the condition of the current "lawn" is awful. (The "lawn" remains uneven dirt year-round.) There is a shortage of field space in the area for local schools and leagues that are desperate for athletic fields.

I live less than a mile away from Westwood Park. My 3 children often have to travel to Play Vista, Culver City, Mar Vista, and beyond for their weekly practices. Balancing a rigorous academic course load with travel time to practice has become tenuous. As adolescents who would like to ramp-up their academic schedules in high school, they do not have the available time needed to take such rigorous courses.

Given the growing popularity of sports like lacrosse, soccer, flag football, and more, there is a **DESPERATE NEED** for additional quality sports fields on the west side of LA.

Plus, the field will conserve millions of gallons of water each year.

Tommy's Field is a gift to Los Angeles, with funds raised by our community. It will benefit everyone.

Thank you in advance for your support.

Sincerely,

Adam Weene

Dear Council Member Paul Koret:

I live at 10585 Ashton Ave, LA, CA 90024, in your district and I support the development of Tommy's Field at Westwood Recreation Center.

I have been very involved in youth sports for over twenty years, and continue to be very active with AYSO Soccer and West LA Little League .

I own my own printing company that helps little league with its printing needs, and am also a consultant for synthetic turf companies who has helped install synthetic turf fields at hundreds of schools, parks and homes.

Synthetic turf is the most playable surface used all over the world to accommodate the growing demand for field sports and also conserve water. The neighbors who argue it is bad for the environment and prefer an unsafe field with holes, fertilizer and pesticides are ignoring all the benefits and not listening facts.

When I attended the first public meeting for Tommy's Field I was shocked to hear such anger coming from a small group of neighbors living adjacent to the park. What's there to be so angry about? Tommy's Field is a gift. It is a beautiful multipurpose field for people of all ages to play on. It will not be locked. It will have designated free play hours for the community. It will make much better use of our limited public space and honor a child who has touched so many hearts in this city. Clearly the loud and overly contentious opposition is confused about what parks are for. They seem to think living next to a park gives them the right to call it "their park" and determine how it is developed and used. They have no regard for the entire community of families that the park serves or for the Department of Recreation and Parks who have a job to design our parks to benefit the majority. Public community parks are not meant to sit empty for the private use of its immediate neighbors and no matter how much time the opposition has on their hands to make nasty comments online and in public, they do not represent the much larger number of residents who believe this project will benefit everyone, inspire our community to play and bring back some much needed positive energy to Westwood.

I urge you to support this project

Thank you,

Jeff Hirschberg

Reply-To: Erin Rottman <eringebroe@yahoo.com>

Dear Council Member Paul Koretz,

I fully SUPPORT the development of Tommy's Field in Westwood Park, as our community is desperate for more athletic fields. Tommy's Field will be for everyone. It will have meaningful free play hours for kids after school and on weekends, and it will support leagues and schools that have nowhere to play. It will also conserve millions of gallons of water and support our city's conservation efforts.

My daughter went to school with Tommy, and our community funded Tommy's Field because we want to honor a young boy who spread joy for sports and passion for life across our city and beyond. This field will do that in a way that benefits generations of families to come

Thank you,

Erin Rottman

Dear Council Member Paul Koretz,

I am writing to you today to show my support for creating Tommy's Field at Westwood Park. This park NEEDS a full size multipurpose field, and it would be an amazing addition for the entire community. My children have played sports at both Westwood Park and Barrington Rec Center for years, however, the state of the fields are dangerous, with pot holes, gopher holes, and dirt. Tommy's Field, which is already fully funded, would be an important addition to Westwood Park for the following reasons:

1. It will be safe, reliable and durable, and perfect for our highly populated urban city.
2. It will be accessible to everyone with meaningful free play hours that promote unstructured play. The Salvation Army Westwood Transitional Village is directly across the street, and Tommy's Field would be a wonderful place for these families to take their children, and spend time, while looking for permanent housing.
3. It will accommodate local schools and leagues that are desperate for athletic fields and have nowhere to play. This in turn could create revenue for the park with families signing their children up to play in leagues.
4. It will conserve millions of gallons of water, a significant concern in our region.
5. It will provide a much needed upgrade to the park and build a stronger sense of community around it.
6. It will honor a child who spread joy for all sports across our community. He was my son's friend. His passion for life will forever be honored by this field and inspire others to play. This is what community is about.

I believe that there is neighborhood resistance to Tommy's Field, which I find hard to comprehend. This dirt field with dangerous holes can no longer sit empty simply because the neighbors consider it "their park" and don't want the rest of the community to enjoy it. The park is FOR THE COMMUNITY, and so many people stand to benefit from its creation. It is a GIFT to the City of Los Angeles with funds raised by our community! Please hear our voices and allow Tommy Marks' memory to be honored by proceeding with the development of Tommy's Field.

With appreciation for your time,
Thank you,

Marina Cohn

Dear Council Member Paul Koretz,

I am the President of the LA Bulls Soccer Club based in the Pacific Palisades.

It is very important that you know that I fully support the up coming renovations at Westwood "Tommy's" Field.

Having worked with LA City parks and Recs personnel Sam Guerrero at Pacific Region Municipile Sports, Eric Mellum at Barrington Parks and Recs, Erich Hass at Palisades Rec Center and LAUSD at Civic Center and Paul Revere, Justin Koretz for the last 5 years, I can tell you that new sports field facilities on the Westside of Los Angeles are needed in order for kids in communities on the west side to have quality places to play.

Currently all of the places I have listed are under staffed, under financed and therefore not maintained to play proper sports except Pali Rec which is privately funded. This is dangerous for our kids in the community but since there are not other locations they end up playing on these fields anyway. It's our duty to have these facilities brought up to par and to hear that such a possibility is in place and now possibly in jeopardy is very upsetting.

We realize that change can be hard on some people in the community, but progress is imperative, and to see the community come together to create the support for this facility to be upgraded shows how important progress like this needs to be followed through on.

The benefit to the community of having high quality facilities is enormous and needs to be kept in mind for the long term.

Please pay special attention to this email and know that by my letter there are hundreds more that agree with the support for the creation of "Tommy's" field.

Thank you so much for your time and understanding.

Best,

Steven

Dear Council Member Paul Koretz,

I am not writing this note because of a friendship or a favor. I'm writing this because every youth sport that is not named "**soccer**" who plays on a multi-use field in the West LA area is dying! Why? Because AYSO has monopolized the permit rights to 95-99% or more of these fields in our area. Also, I would say they have the permit rights to 100% of these fields with lights after dark. Most importantly, their unscrupulous deal making and underhanded donations to the schools/parks as well as paying to build fields for their use ONLY goes against everything we preach in regards to youth sports. This must change! There is not one West LA multi-use field North of Rancho Cienega, South of the San Fernando Valley, East of Santa Monica and West of Downtown that can be considered a hub for lacrosse, tackle football, flag football, flying a kite, or just chasing a Frisbee. Personally, our youth tackle football organization could not find a safe & lit field for 8 years so we had to go to the Culver City School District. We practiced for a couple years at Westwood Rec on the dirt field until it was not safe to do so. We were promised the use of the newer turf field there by multiple parties, but AYSO's stronghold of 99% of the permit time pushed us out. In conclusion, youth baseball has many of their own public fields lighted fields that are actually NOT used by anyone else but their organization. Soccer does as well. So, how can the above mentioned sports & activities have NOTHING? Zero! Tommy's Field is the answer! It's hard to believe that this stuff is actually going on in a major metropolitan city, but my facts are accurate and unconscionable. Feel free to contact me about any of the detailed facts of my email. Best, Kenny.

Tommy's Field Letter of Support

1 message

Mike Page <mpage@labreakersfc.com>
To: Michael.a.shull@lacity.org, jasmine.shamolian@lacity.org

Tue, May 21, 2019 at 1:52 PM

Dear Council Member Koretz,

I am the Club Director of the Los Angeles Breakers non-profit youth soccer club and we are located in the 5th District. We have approximately 650 youth soccer players, boys and girls ages 7-18 years old, in our organization and are the largest competitive youth soccer club in Los Angeles. We have helped over 100 players reach their goal of going to college and playing collegiate soccer over the past 18 years.

Currently, our main practice field location is at MacArthur Field on the VA property in West LA where we have been for the past 18 years. As I'm sure you are aware, the Master Plan for the VA is being implemented and MacArthur Field has been targeted for new housing. When that work begins, potentially next year, we will have to vacate the field and we will need to find field space elsewhere.

So, for this reason as well as others outlined below, the LA Breakers fully support the construction of Tommy's Field at Westwood Park. We believe the project should be approved for the following reasons:

There is already nowhere near enough field space in the District to accommodate the number of kids playing sports. We probably need at least 5-6 more multipurpose fields just like this one in the area to support the demand for youth sports in the community.

This particular space is already being permitted for sports but it gets so worn down by overuse that it becomes unusable for most sports at periods throughout the year. Having a turf field with lights would mean the area would be utilized year round with minimal maintenance by the city.

We also support the field being open at various times for "open play" so kids can just come and play soccer and other sports without coaches. In soccer, we know playing "pick up" soccer is very beneficial to their development and we support this element as part of the plan for the field.

We hope that you will also support this project on behalf of the kids in the district who play all sports and will benefit greatly from this field. Thanks so much.

Dear Council Member Koretz,

My family supports the development of Tommy's Field at Westwood Recreation Center<x-apple-data-detectors://5>. Tommy's field is a gift to the city that will upgrade our local park, inspire both organized and unstructured free play and make much better use of an existing space that has sat empty and unsafe for decades. It is hard to believe that anyone would want to leave the existing field the way it is when we can develop one, at no cost to the city, that is safe, reliable and conserves millions of gallons of water a year. I hope you agree and will support this project.

Sincerely,

Elizabeth Brockman

Dear Mr. Koretz,

I fully support Tommy's Field.

Please allow the generous gift from the Marks family to build our Westwood Community a new soccer field for everyone to play and exercise.

This is a terrific way to honor their son and give back to the sport he loved.

The area the field would be improving wasted space that for years has been an eye sore under used by the residents. Build the soccer field and a new bathroom that the whole park desperately needs.

Thank you.

Sincerely,

Diana Kaufman

To Council Member Paul Koretz,

I am writing this email to express my FULL SUPPORT for Tommy's Field at **Westwood Park** in West Los Angeles.

This full size multipurpose field would be an important and very useful addition to our community for many reasons, including the following:

- It will be safe, reliable and durable, and perfect for our highly populated urban city.
- It will be accessible to everyone with meaningful free play hours that promote unstructured play.
- It will accommodate local schools and leagues that are desperate for athletic fields and have nowhere to play.
- It will conserve millions of gallons of water, a significant concern in our region.
- It will provide a much needed upgrade to the park and build a stronger sense of community around it.
- It will honor a child who spread joy for all sports across our community. Tommy's passion for life will forever be honored by this field and inspire others to play.

Tommy's Field is a gift to the City of Los Angeles with funds raised by our community. No longer can this dirt field with holes sit empty simply because neighbors who live next to the park consider it "their park" and don't want the rest of the community to enjoy it.

As a soccer player myself, my friends and I never can find field space to play, have fun, and enjoy the community around us. With the addition of Tommy's field to Westwood Park, I can truly see myself heading over to the field and playing some soccer. This would be an incredible addition to our community and I can't wait for it to be built.

Thank you for your consideration,

Samuel Motzkin

Jasmine Shamolian Jasmine.shamolian@lacity.org

Dear Council Member Paul Koretz,

As a resident in your district, I am writing to express my strong support for Tommy's Field at Westwood Park. I believe this field would be a great addition to the Park and to our entire community for many reasons, including:

- The synthetic field will be a vast improvement over the dirt that is currently full of holes, unsafe to play on and mostly enjoyed by dogs despite the newly installed dog park nearby.
- It will encourage our youth to get out from behind their screens and engage in healthy activities, like playing sports in their local park and meeting new friends.
- It will provide a full size athletic field for unstructured play and for local schools and leagues that are desperate for additional field space.
- It will conserve millions of gallons of water, a significant concern in our drought-ridden region.
- It will honor the memory of Tommy Mark, a personal friend to our family and a boy who had a deep impact on the community by inspiring kids to play, laugh and build relationships. That is what parks are for.

Tommy's field will upgrade our neighborhood and benefit children and families for generations to come. I hope you will lend your support for this project as well.

Sincerely, Sarah Bott

Councilmember Paul Koretz
200 N. Spring St., Suite 440
Los Angeles, CA 90012

Dear Councilmember Koretz,

I am writing in support of the development of Tommy's Field in Westwood Park. As a former president of Cheviot Hills Pony Baseball Association, member of the Westwood South of Santa Monica (WSSM) neighborhood board and, most importantly, the father of two boys who have grown up playing on our local fields, I feel that it is imperative to create safe, well-maintained athletic fields where all our kids can play and thrive. Westwood Park provides an ideal location to create such a space.

With the current plan for Tommy's Field to provide meaningful free play hours for kids, recreational leagues and schools with no "play space" available to them, this is an opportunity to create a safe haven where all girls and boys can come together in an outdoor space dedicated to their passion for play. The plan also provides a means to conserve millions of gallons of water and support for our city's conservation efforts.

This is not just a win-win situation for our community, but it is also an opportunity to honor the memory of a young boy and his passion for sports, play and his friends.

Sincerely,

Cary Okmin

Sat, Jun 15, 2019 at 9:22 AM

Dear Council Member Koretz,

I live in your district and I heartily endorse Tommy's Field.

I ask that you help us create a great park for people to play together.

I knew Tommy his whole life and he was an inspiration to everyone who knew him, despite his short time on this planet. He was like Magic Johnson; he brought a smile to everyone's face. He took care of those less fortunate and he knew no class or race or religious distinctions of any type. He was a universalist. We can all be proud to have a people's park named after him.

Tommy's Field will be a great addition to Westwood. I grew up playing baseball at the little league field nearby. We need to preserve areas where young and old members of our community can come together in a safe environment and play and exercise. This is the American dream.

Please help us improve and preserve this park. The large number of donors and supporters is testament to the unique individual Tommy was and also to the need for a place where we can come together as one.

Thank you for your help.

On Thu, May 16, 2019 at 12:20 PM Allison Schenck <allisonschenck@yahoo.com> wrote:

Dear Council Member Paul Koretz,

I read about the opposition to the field for Tommy Mark in the May 10th Holmby Westwood update email and I am appalled. We have lived in this neighborhood for 17 years and knew Tommy well. We cannot think of a better way to honor his legacy, which was synonymous with soccer, and simultaneously, provide our community with much needed athletic space on a good quality field.

Soccer is one of the most popular sports in our neighborhood, and children of all ages, and even adults, would enjoy having a wonderful place to play. In addition, all people would be able to enjoy the space for other sports or just to run around. There seems to be ample field space at the Westwood Recreational Center to accommodate this project. Plus, it is being gifted to the city, so there is no financial burden. It is a win-win.

Currently, the proposed space is empty on most days or has dogs roaming around off leash, who should be in the dog park which already exists. Additionally, during more typical LA weather patterns with little rain, this space does not have grass. Instead, it is a dirt field that is rocky and dangerous for athletic play.

As to the two complaints in the HW email, first, the synthetic material of this field is safe and has been approved by the Department of Recreation and Parks, and second the fences people are complaining about will only be four feet high to keep dogs out and soccer balls in; they will hardly be an eye sore. In fact, as this field is replacing two tennis courts with much higher fencing, this field will, in fact, open up the overall space and make the park more aesthetically pleasing.

We will be attending the May 23 meeting and implore you to join us and our community who definitely support this amazing project.

Sincerely,

Allison & Kirk Schenck

Subject: Tommy's Field Support Letter

To: Councilman Paul Koretz
c/o
Michael.a.shull@lacity.org, and
[Jasmine.shamolian@lacity.org](mailto:jasmine.shamolian@lacity.org).

I am a 25-year+ resident of the district, living at [2237 Manning Avenue](#). Like my lifelong friend Doug Mark, I grew up on the west side of LA. We went to Emerson Junior High and Uni together in the 1970s. We played sports all the time when we were kids, non-stop. We've lived here all our lives and we know the community and how it functions really well.

Doug and Nikki are thoughtful, progressive, caring members of the Westwood community. They are making a heroic effort to turn their family tragedy into a lasting memorial that will serve the kids and families of the area for decades to come. Westwood Park is great and it's a fine resource, but like many city facilities it was conceived and executed during a different era. My family and I have complete faith in Doug and Nikki and their vision for a significant and amazing improvement to a park that could use and benefit from upgrades.

There will always be voices, worth considering, that want to resist improvements and change, that idealize something that has never functioned to its fullest extent, or even very well. The field at Westwood Park is a perfect location to build a state-of-the-art turf field that will be used constantly by dozens of kids and families. It will enhance the park greatly—it's exactly what would be built if the park were to be conceived from scratch today.

Doug and Nicky know all this and so much more—they're considerate and caring members of the community, with not only the best intentions but also a intelligent, ambitious and measured approach.

We fully support them and their work not just as close friends, but also as longtime Westwood residents.

Thank you.

Subject: In Support of Tommy's Field
Reply-To: Erin Rottman <eringebroe@yahoo.com>

Dear Council Member Paul Koretz,

I fully SUPPORT the development of Tommy's Field in Westwood Park, as our community is desperate for more athletic fields. Tommy's Field will be for everyone. It will have meaningful free play hours for kids after school and on weekends, and it will support leagues and schools that have nowhere to play. It will also conserve millions of gallons of water and support our city's conservation efforts.

My daughter went to school with Tommy, and our community funded Tommy's Field because we want to honor a young boy who spread joy for sports and passion for life across our city and beyond. This field will do that in a way that benefits generations of families to come

Thank you,

Erin Rottman

Dear Council Member Koretz,

I live in your district and I heartily endorse Tommy's Field.

I ask that you help us create a great park for people to play together.

I knew Tommy his whole life and he was an inspiration to everyone who knew him, despite his short time on this planet. He was like Magic Johnson; he brought a smile to everyone's face. He took care of those less fortunate and he knew no class or race or religious distinctions of any type. He was a universalist. We can all be proud to have a people's park named after him.

Tommy's Field will be a great addition to Westwood. I grew up playing baseball at the little league field nearby. We need to preserve areas where young and old members of our community can come together in a safe environment and play and exercise. This is the American dream.

Please help us improve and preserve this park. The large number of donors and supporters is testament to the unique individual Tommy was and also to the need for a place where we can come together as one.

Thank you for your help.

Peter Allen

Subject: The Tommy Mark memorial soccer field

Dear Council Member Paul Koretz,

I am a lifelong resident in your district/grew up on Dalehurst Ave and currently own a place at 10501 Wilshire blvd since 1989. Tommy's father Doug Mark is one of my closest childhood friends and also a lifelong resident in your district.....he grew up on Strathmore next door to the Matty of Mateo's fame and now has a home on Wyton and still rides his bike into Westwood village as we all did as children at Warner Avenue Elementary school, Emerson Jr High School and University High School.

Paul.....this one is very personal to me as I loved this child beyond.....he touched thousands and was even paid tribute to at an LA Galaxy game. Forgive me for being so familiar, but I do know you via my nutty and lovely mother in law Barbara Lindemann and have spent many evening with you there/at Liberty Hill events etc and been supporting you since your first campaign.....thank you so much for your service.....this one is my only ask!

Tommy's soccer field in Westwood park will be funded entirely by private donations.....a gift to this fine city, a safe place for children to play in an urban environment, it will conserve water, accommodate local schools who need it, upgrade the park and most of all, honor a remarkable young man adored by all. I could go on and on about him, and his younger brother Donovan, his mother Nikki and father Doug, and will if needed, but the support in our community is very strong and hoping this outreach finds you after the field has been greenlit! Thanks so much in advance for this and all else you do to better our lives.

Very Sincerely,
Stephen Nemeth

Dear Council Member Paul Koretz,

I am writing to express my enthusiastic support for Tommy's Field at Westwood Park. As a longtime resident in your district, I know firsthand that this field would make a positive impact on the entire community and would be a welcome addition to the Park's facilities. Below are just a few of the positive aspects that would result from this project:

1. Provide and encourage our youth to engage in healthy outdoor activities, like playing sports in their local park, making new friends and spending less time staring into a screen.
2. Add a full size athletic field for unstructured play, as well as space for local schools and leagues that are desperate for additional field space.
3. The synthetic field will be a tremendous landscaping improvement over the area currently covered in dirt and full of dangerous holes.
4. The field will also help in the conservation of millions of gallons of water, which is an ongoing concern in our drought-ridden region.
5. Last, but not least, this field will honor the memory of Tommy Mark, a personal friend to our family and a boy who had a deep impact on the community by inspiring children to play, laugh and build relationships. Which is exactly what park spaces are for.

Tommy's field will elevate our neighborhood and be an asset to children and families for generations to come. It is my hope that we can count on your support for this project as well.

Best,

Joe Fahey

Subject: Tommy's Field at Westwood Park

Dear Council Member Koretz,

I writing you to voice my support for Tommy's Field at Westwood Park. I know that the addition of this field will have an important and long lasting impact on the westside community. Tommy's Field will provide a high quality public field for sports, exercise and general public play, a rarity in Los Angeles. In addition it takes the place of a grass area of the park that has always been unusable and at no cost to tax payers.

Your assistance in making sure that Tommy's Field at Westwood Park is critical. Please do not let this important and worthy project fall through the cracks.

Thanks,
Jorge Hinojosa
(310) 439-9192

Dear Council Member Koretz,

I am a Warner Avenue Elementary School parent and live in your district. I fully SUPPORT the development of Tommy's Field in Westwood Park and believe it is a very important addition to our neighborhood.

The multipurpose field will make use of an existing underutilized space to benefit children and adults. It will encourage free and unstructured play, and also support schools and leagues that need more athletic fields for their programs and families. Warner Elementary doesn't have any field space so it is very meaningful to have a park nearby where kids have access to a field and can play freely and with their teams.

I can think of no better way to honor Tommy, and are proud to support a legacy that benefits our entire neighborhood.

Thank you,

Sepideh Nazarian

*Real Estate Agent
Westwood*

Dear Council Member Koretz,

I live in your district and **I SUPPORT** the development of Tommy's Field at Westwood Park and Recreation Center.

Tommy's Field is offered as a gift to the City of Los Angeles, with funds raised from Tommy's and his family's community - longstanding Westwood residents - with no strings attached. It honors the memory of Tommy Marks, a boy who attended school and lived right here in Westwood. Tommy was an avid soccer player who brought so much joy to sports and passion to life, and whose impact has deeply affected our community. Mobilizing to make Tommy's Field a reality has been a healing event for the many parents and children in our local community who have been affected by Tommy's sudden loss at a young age.

The existing space is unusable for kids to play. Most of the year that space is hard dirt, or mud. Even now when there is grass, nobody uses it because it's soaked with mud and full of ruts. Tommy's Field will be safe and durable, playable rain or shine and appropriate for the urban city we live in. The current space is unusable and underutilized, and has been for decades. Given our Southern California climate and regular drought conditions it is vital that we save the millions of gallons of water that this field will allow.

Tommy's Field will provide a safe and reliable space for families, schools and athletic programs to grow in our community, exercising outdoors and helping to combat current epidemics of obesity and depression. Beautiful fields encourage our youth to get out from behind their screens and engage in healthy activities, like playing sports in their local park.

I ask for your support for Tommy's Field. Tommy's Field will be for everyone. Our parks serve our entire community, not just the immediate neighbors who complain that they don't want more people coming to "their park." There is no opposition that should counterbalance all the good that will come from it.

Sincerely,

From: Dana Kay <dkay@dvs.tv>

Subject: Tommy's Field

Dear Council Member Koretz,

My family supports the development of Tommy's Field at Westwood Recreation Center. Tommy's field is a gift to the city that will upgrade our local park, inspire both organized and unstructured free play and make much better use of an existing space that has sat empty and unsafe for decades. It is hard to believe that anyone would want to leave the existing field the way it is when we can develop one, at no cost to the city, that is safe, reliable and conserves millions of gallons of water a year. I hope you agree and will support this project.

Sincerely,

Dana Kay

Subject: Tommy's Field

Dear Council Member Koretz,

I live and work in your district and I SUPPORT the development of Tommy's Field in Westwood Park. I had the pleasure of knowing Tommy Mark and this field is an excellent tribute to a young boy who brought so much joy for life and passion for sports to our community.

Tommy's Field will make use of an existing space that typically sits empty or has dogs on it. In all the years that I went to this park with Tommy, never once did we play on this field because the surface was so poor and dangerous. Since the field will be made of synthetic turf and have lights, it will be used by more people on a daily basis and simultaneously conserve millions of gallons of water.

Our community has a growing desire to play field sports like soccer, football and lacrosse, and there is simply no public space in the neighborhood that supports this reality. City parks have multiple baseball diamonds, basketball courts and tennis courts- but our community does not even have one full length soccer-multipurpose field, which forces families to drive hours to other cities just to find one. Given the current land is extremely underutilized and the funds for Tommy's Field have been fully raised by the community the park serves, it seems obvious that this project is a win for everyone.

Thank you,

Jared Crossman

Cc: "jasmine.shamolian@lacity.org" <jasmine.shamolian@lacity.org>

Dear Council Member Paul Koretz,

I live in your district and I SUPPORT the development of Tommy's Field in Westwood Park. This project is a labor of love for so many people in our community...people who want to honor the legacy of a wonderful child, and also keep his memory alive by improving our city for generations of children to come.

This multipurpose synthetic field is an important addition to our park and community for many reasons, some of which include:

The field will be for everyone, with meaningful free play hours that promote unstructured play. The current small soccer field at the park can't accommodate older age groups or our community's increasing population and demand for field sports. This is a reality of our times and we need to update our infrastructure to support it.

The field will conserve millions of gallons of water and replace a historically dirt field riddled with holes.

The field is a gift funded by our community and generously supported by the LA Galaxy and LAFC. Their willingness to collaborate for the benefit of our community and the growth of youth sports is a message that we must encourage and spread.

The Los Angeles City website for Parks and Recreation says that its focus is to: "increase recreational programming; support greater park access and equity; implement increased sustainability practices and projects; and maximize private-public partnerships that improve customer services." That's what Tommy's Field does.

Thank you,

Jonathan Bluman

To Council Member Paul Koretz,

I am writing this email to express my FULL SUPPORT for Tommy's Field at Westwood Park in West Los Angeles.

This full size multipurpose field would be an important and very useful addition to our community for many reasons, including the following:

- It will be safe, reliable and durable, and perfect for our highly populated urban city.
- It will be accessible to everyone with meaningful free play hours that promote unstructured play.
- It will accommodate local schools and leagues that are desperate for athletic fields and have nowhere to play.
- It will conserve millions of gallons of water, a significant concern in our region.
- It will provide a much needed upgrade to the park and build a stronger sense of community around it.
- It will honor a child who spread joy for all sports across our community. Tommy's passion for life will forever be honored by this field and inspire others to play.

Tommy's Field is a gift to the City of Los Angeles with funds raised by our community. No longer can this dirt field with holes sit empty simply because neighbors who live next to the park consider it "their park" and don't want the rest of the community to enjoy it.

As a soccer player myself, this field would be amazing because we don't really have a field in our area where I can go to play with my friends after school or on the weekends.

Thank you!

Eli Motzkin

I'm writing to express my support for Tommy's field. It's so important to have space that can be used for multiple different purposes. The space is currently underutilized and is perfect for our urban city.

Additionally, it's incredibly inspiring to have a space named after a member of our community. And the money has been raised independently so it doesn't require city resources to get it up and running.

Please let me know if there's anything you need to move this forward. Thank you,
Diane Shader Smith

Dear Council Member Koretz,

Please support Tommy's Field at Westwood Park. Our community needs great fields like the one proposed. The current space is unusable and unsightly so this is a needed improvement. Currently, there is a deficit of useable fields that are open to the public for free so this field fills a big need for our community. I look forward to this field becoming a reality so my family and others can enjoy it. Please make sure this project is given close attention so that it is a reality.

Please let me know you received my email and that you are supporting this project.

Sincerely,
Ava Hinojosa

Dear Council Member Paul Koretz,

I live in your district and am a parent at Warner Avenue Elementary School. I fully SUPPORT Tommy's Field. This athletic field will be a great addition to Westwood Park and our neighborhood for many reasons, including:

- It will replace a primarily dirt and uneven area that has been neglected and unused for decades.
- It will be accessible to children and adults with meaningful free play hours that promote unstructured play.
- It will conserve millions of gallons of water, a significant concern given where we live.
- It will encourage children to go to their local park to play sports and meet new friends.
- It will provide a much-needed upgrade to the park and build a stronger sense of community around it.
- It will accommodate some local schools and leagues that are desperate for athletic fields and have nowhere to play.

Tommy's Field is beautiful legacy that will benefit children and families in our district for many generations to come.

Thank you,

Best Regards

>

> Dear Council Member Koretz,

> I am writing you to tell you of my strong support of Tommy's Field in West LA. The idea and vision for this field is one of the most beautiful, positive expressions to come out of the horrific tragedy that befell a family in your district. What a great and generous gift we have been offered for our city and our families through the ardent, committed fundraising Doug and Nikki Mark undertook to build a field in Tommy's name—a field for all of Tomy's peers and their families who love the game and camaraderie of soccer and team sports. The Marks did not simply write a check. They went out to thousands of people in Los Angeles and engaged them in building a vision for what our city could use, something Tommy would have loved to use. What message does it send those people, many of whom raised the funds in Saturday car washes and bake sales, to deny them a dream they helped build.

>

> For all of us who work in Los Angeles and are raising families here, nothing could be of greater value than a park that provides a safe place for children (and adults!) to further their athletic skills, engage in healthy physical and team-building activity, and recognize that their community values them as citizens by building them a state-of-the-art facility. These are all critical messages that need to be sent to our children and those who call LA home.

>

> I gather there have been some members of the community who for years have not used the designated area, in fact, neglected it to the point of allowing it to deteriorate and be of use to almost none. Now that a hard-won gift to our community is being offered — one that might actually entice citizens to use the park-- they have come out of the woodwork in a cynical move to protect the backyard they weren't using. Shame on them. This is hypocrisy and self-serving behavior that just continues to divide our community from feeling united. The message being sent is that the people who "have" a park, don't want to share it with those who don't. It's a bad message, and comes at the additional cost and loss for thousands of children and adults who might enjoy health, vibrancy and pleasure in a public gathering place.

>

> Please do not be intimidated by a small group of people standing in the way of a great goal and vision! We know how important athletics are to our physical, mental and spiritual well-being as a city and community. Our environment is already depleted of natural spaces where people can gather. Please help keep this dream alive for those of us who live or work in the area. I live in Studio City, but I work at San Vicente and Wilshire, and would relish nothing more than watching an almost unused space turn into a center of healthy activity for children and adults.

Dear Jasmine Shamolian,

I am the Executive Director of The Salvation Army Red Shield Youth and Community Center in the Pico-Union district of downtown Los Angeles. The Red Shield Center has served the community for over 69 years and we have a beautiful synthetic turf field which is the major highlight of our program and frequented by many children and families each day. I have collaborated with Nikki Mark on a variety of different projects for our center and her efforts have always been in the interest of our community and youth. Our center is not in Council District 5, but the Salvation Army Transitional Living Village is and we have the same mission to serve the youth and families in our communities. On a personal note, I live in Council District 5 and Westwood Park is where my daughter grew up participating in the many park's activities and where my husband and I continue to enjoy by taking our dog to the park's dog park. I am aware of Tommy's Field and want to express my full support for the project, as well as my experience with synthetic turf fields in high traffic areas:

- The multipurpose field will accommodate athletic teams of all age groups. Synthetic turf has been very successful in our center and can withstand much more use than grass.
- The synthetic turf is excellent for all kinds of activities. We use it for soccer, frisbee, flag football, kickball and softball.
- The lights at Tommy's Field will allow the field to be utilized in the evenings and keep the area safe and well-lit so that it may be utilized for evening play.
- The synthetic turf can be used year-round, in all weather conditions, again making the area much more utilized. Our field is one of the most popular areas in our center and a very important part of giving our kids necessary daily physical activity.
- The turf field is one of the highlights of our center. Given Salvation Army Transitional Village is right across the street from the park, it will definitely be a gift to all of the families there who enjoy spending time at the park and will also add beauty to the park.

Please feel free to contact me if you would like any additional information. I would be happy to speak with you.

Thank you.

- It will conserve millions of gallons of water, a significant concern in our region.
- It will provide a much needed upgrade to the park and build a stronger sense of community around it.

For me, Tommy's Field is that much more special because it will honor a child who spread joy for all sports across our community. His passion for life will forever be honored by this field and inspire others to play. This is what community is about.

Tommy's Field is a gift to the City of Los Angeles with funds raised by our community. No longer can this dirt field with holes sit empty simply because neighbors who live next to the park consider it "their park" and don't want the rest of the community to enjoy it. In fact, when I was at the park yesterday, one of these neighbors was posting flyers and telling others that the Field is being funded by "special interest" groups. This is completely inaccurate and false. More importantly, it shows that these neighbors will say or do anything, even outright falsehoods, to spread their agenda and try to prevent this wonderful field from being built.

I wholeheartedly support the construction of Tommy's Field.

Thank you,

Sasha Frid

Cc: nikfreemark@gmail.com

Dear Councilman Koretz and Parks Commissioner Shull,

I'm writing to you to let you know that myself and my family are in full support of a new field in honor of Tommy's Field at Westwood Rec Park. The current state of the field is in desperate need of an upgrade - my son plays soccer there and I play tennis at the Westwood Rec., so we speak from experience. I couldn't think of a more compelling and beautiful gesture than to build a turf sports field for everyone to enjoy in honor of Tommy Marks.

You have our support.

David & Danelle Geller
444 Comstock Ave.,
Los Angeles, CA 90024

Dear Council Member Paul Koretz,

I fully SUPPORT Tommy's Field. This full size synthetic athletic field with lights is an important addition to Westwood Park and our neighborhood for the following reasons:

- It will have a low fence and remain unlocked so that everyone in the community will have meaningful access to it for free play.
- It will be safe, reliable and durable, which is perfect for our highly populated urban city. The current space has been underutilized for decades and left to remain dirt, mud and holes.
- It will accommodate local schools and leagues that are desperate for athletic fields and have nowhere to play.
- It will allow for evening play, and provide more opportunity for our community to engage in physical activities in their local park.
- It will conserve millions of gallons of water, a significant issue in our region.
- It will provide a much-needed upgrade to the park.
- It will honor a child who spread passion and joy for all sports across our region, and this legacy will continue to unite our neighborhood for generations to come.

Thank you,

Steve Shpilsky

Subject: Tommy's Field - Westwood Park

Dear Council Member Paul Koretz,

I live in your district and fully support the development of Tommy's Field at Westwood Park and Recreation Center. Developing a multipurpose field with lights in the center of the park will improve safety and make much better use of the existing space that has historically been mostly dirt and holes. We need to upgrade our parks to accommodate our growing population and demand for field sports like soccer, and given Tommy's Field has been 100% funded by the community, this is a perfect solution. The push back seems to be from community members that are uninformed about how the field will be open to everyone, not just those participating in private soccer clubs. There is no cost to the community, it's a win-win for all!

Our kids deserve better sports accommodations in West LA and Tommy's Field not only provides a safe and open space, but honors someone who exemplified the spirit of joy, giving to others and providing opportunity to follow your dreams.

Thank you,

Tatiana Ghielmetti
10525 Wilkins Ave.

COUNCIL MEMBER PAUL KORETZ

6380 WILSHIRE BLVD., SUITE 800, LOS ANGELES, CA 90048

Dear Council Member Paul Koretz,

I live in your district and am a parent at Warner Avenue Elementary School. I am writing you to let you know that I strongly support the development of Tommy's Field. I believe it will be a great addition to Westwood Park. Tommy's Field will honor a child from our community who left a mark on anyone who knew him and this field will inspire countless kids to play like he did! I also like that Tommy's Field will conserve millions of gallons of water, as we are forced to deal with drought concerns. I believe the planners have a well thought out project that will benefit our community and create a wonderful memorial to honor the legacy of twelve-year old Tommy Mark.

SINCERELY,

Lisa Leopold

Dear Council Member Paul Koretz,

We strongly SUPPORT Tommy's Field in Westwood Park<x-apple-data-detectors://4>.

We are both lifetime residents of the west side of Los Angeles and have grandchildren who will be attending the Geffen Academy nearby Westwood Park.

After taking time to understand all of the pertinent issues relating to this project, we are absolutely certain that Tommy's Field will be a full size multipurpose field, will be safe and durable, playable rain or shine and appropriate for the urban city that we live in.

We have been assured that the field will have a low fence, remain unlocked and have meaningful free play hours after school and on weekends so kids and adults can engage in unstructured play. In addition, it will accommodate local youth teams and schools who have nowhere in the neighborhood to play and have to drive into other areas of the city to fight for field space. This gift to the city is a wonderful way to upgrade the park's infrastructure and accommodate our city's growing needs.

Tommy's Field honors one of our own and will greatly benefit children and families for generations to come. We respectfully request that you support this very meaningful project.

Sincerely,

Tommy's field

Max Weene <maxweene@gmail.com>

Sun, May 19, 2019 at 9:35 PM

To: michael.a.shull@lacity.org, jasmine.shamolian@lacity.org
Cc: Dad <aeweene@saban.com>, Mom <laurabrand2@gmail.com>

Dear Council Member Koretz,

I fully SUPPORT Tommy's Field. Here is a speech that I gave last week in support of Tommy's field at the Westwood Rec Center to members of the PRB:

Hi. I'm Max Weene and I'm 14 years old.

Tommy was my friend and from a young age we played soccer together. Our families are friends and our little brothers are very close. I can't think of a better way to honor Tommy's legacy than building a field in his name, especially when there are so few fields in our neighborhood for us children to play on.

I live a mile up the street just off Sepulveda in Westwood. From the moment I was able to walk, I've played soccer from clinics to AYSO to competitive club soccer. In addition, I have a twin sister and a 12 year old brother, both of whom have played soccer all their lives, as well.

Soccer is a huge part of our lives. We each practice 3 times a week and play 1-2 times a weekend. Unfortunately, the children of Westwood, West LA and nearby areas are at a big disadvantage to most of Southern California and the rest of the country due to the lack of field space. I often have to drive over 30 minutes each way to practice, which sums up to over three hours a week spent in the car driving to and from my soccer practices. Often, the nearest locations where I practice are in Playa Vista, Culver City, Mar Vista, the Palisades, and beyond.

When I get into high school, I would like to take a few AP classes each year because I'm told top colleges require that. However, because I have to drive to fields so far away, I wouldn't have time to study for those AP classes, and would be forced with a decision to either take an easier schedule or to give-up soccer, which seems like an unfair choice.

So I beg you to please, please, please consider building Tommy's field. I can't emphasize how important this field is to me, my family, my teammates, and to the thousands of soccer and sports players in the community. It may not seem like it to you, but if we can build this field, for decades to come, the communities of Westwood, West LA, and surrounding areas will enjoy and benefit from your action, and from the legacy that Tommy Mark has left behind. Thank you.

Tommy's Field is a gift to the City of Los Angeles with funds raised by our community and it will benefit everyone for generations to come.

Thank you,

Max Weene

Subject: Support for Tommy's Field

Dear Council Member Paul Koretz,

As a resident in your district, I am writing to voice my support for the proposed project to build 'Tommy's Field' at Westwood Park.

I grew up playing AYSO soccer in Westwood Park. Soccer teams in our area were often short of field space. Teams that relied on natural grass fields had to cancel practice and games if it rained.

Tommy's Field would be a great addition for all young soccer players in the area. It would be a vast improvement over the dirt that is currently there - full of holes, unsafe to play on and mostly enjoyed by dogs despite the newly installed dog park. Tommy's Field would help schools and leagues in the area that are desperate for additional field space, while conserving millions of gallons of water, a significant concern in our drought-ridden region.

The field would also be a way to honor the memory of Tommy Mark. Tommy was not only a family friend, but someone who inspired other kids to get out from behind their screens, play soccer and build relationships.

I believe this field would be a great addition to the Park and to our entire community - for generations to come. I hope you will lend your support for this project.

Sincerely, Owen Fahey

MESSAGES

Richard Motzkin <rmotzkin@teamwass.com>

Sat, May 18, 2019 at 7:33 AM

To: "Michael.a.shull@lacity.org" <Michael.a.shull@lacity.org>, "Jasmine.shamolian@lacity.org"

<Jasmine.shamolian@lacity.org>

Cc: Nikki Mark <nikfreemark@gmail.com>, Doug Mark <Doug@epitaph.com>, Randee Motzkin <rmotzkin@me.com>

To Council Member Paul Koretz,

I am writing this email to express my FULL SUPPORT for Tommy's Field at Westwood Park in West Los Angeles.

As the parent of three teenagers, this full size multipurpose field would be an important and very useful addition to our community for many reasons, including the following:

- It will be safe, reliable and durable, and perfect for our highly populated urban city.
- It will be accessible to everyone with meaningful free play hours that promote unstructured play.
- It will accommodate local schools and leagues that are desperate for athletic fields and have nowhere to play.
- It will conserve millions of gallons of water, a significant concern in our region.
- It will provide a much needed upgrade to the park and build a stronger sense of community around it.
- It will honor a child who spread joy for all sports across our community. Tommy's passion for life will forever be honored by this field and inspire others to play.

Tommy's Field is a gift to the City of Los Angeles with funds raised by our community. No longer can this dirt field with holes sit empty simply because neighbors who live next to the park consider it "their park" and don't want the rest of the community to enjoy it.

And finally, as someone who grew up near a local park in the San Fernando Valley and spent hours playing there every week, I know first-hand how much enjoyment kids will receive having this place to

play and how much it will help our children's overall physical and mental well-beings. So please make sure that the right thing is done here, as it is important to provide this resource for the kids in our community, as well as for future generations.

Thank you and feel free to call me if you wish to discuss further,

Dear Council Member Koretz,

I am the Principal of Warner Avenue Elementary School. Tommy Mark was a student at this school, and his younger brother still is. Tommy was a wonderful child and this field is a beautiful legacy that I fully support.

Our public school has a charming but all cement yard. It would be wonderful to have Tommy's Field in the neighborhood where children and families can meet after school and on the weekends to play field sports, meet new friends and stay active. The field will be an excellent upgrade to our neighborhood and an asset that I know the Warner community will enjoy for many generations.

Dear Council Member Koretz,

I am a Warner Avenue parent and live in your district. I SUPPORT the development of Tommy's Field in Westwood Park.

Tommy's Field will be everyone, and our community is in desperate need of more athletic fields that promote free unstructured play and also accommodate youth teams. The existing space is unusable for kids to play on and has been for decades.

Tommy's Field will help combat current epidemics of obesity and depression. Beautiful fields encourage our youth to get out from behind their screens and engage in healthy activities, like playing sports with friends in their local park.

Tommy's Field is a gift to the City of Los Angeles with no strings attached. It will benefit generations of children and families for years to come and significantly upgrades our local park.

Dear Council Member Paul Koretz,

I am a student at Warner Avenue Elementary School. I also live in your district. I SUPPORT the development of Tommy's Field in Westwood Park. We need an athletic field in our neighborhood so we can play field sports like soccer and football with our friends after school and on the weekends.

Thank you,

Dear Council Member Koretz,

I am a Warner Avenue parent and my family lives in your district. I am very supportive of the development of Tommy's Field in Westwood Park.

This synthetic turf multipurpose field is an important addition to our Westwood neighborhood. The field will be durable and safe, have lights and be perfect for the needs of our growing population. Its synthetic turf will conserve millions of gallons of water and support all of our conservation efforts. Its low fence will ensure free play and public access. The field will encourage kids to get off technology and out into their community park to meet new friends, play and engage in healthy activities.

Tommy Mark was a Warner Avenue Elementary School student, and this field not only honors one of our own, but will benefit generations of children and families to come.

Dear Council Member Koretz,

I am a Warner Avenue ~~parent~~^{teacher} and live in your district. I SUPPORT the development of Tommy's Field in Westwood Park.

Tommy's Field will be everyone, and our community is in desperate need of more athletic fields that promote free unstructured play and also accommodate youth teams. The existing space is unusable for kids to play on and has been for decades.

Tommy's Field will help combat current epidemics of obesity and depression. Beautiful fields encourage our youth to get out from behind their screens and engage in healthy activities, like playing sports with friends in their local park.

Tommy's Field is a gift to the City of Los Angeles with no strings attached. It will benefit generations of children and families for years to come and significantly upgrades our local park.

Dear Council Member Paul Koretz,

I live in your district and am a parent at Warner Avenue Elementary School. I fully SUPPORT Tommy's Field. This athletic field will be a great addition to Westwood Park and our neighborhood for many reasons, including:

- It will replace a primarily dirt and uneven area that has been neglected and unused for decades.
- It will be accessible to children and adults with meaningful free play hours that promote unstructured play.
- It will conserve millions of gallons of water, a significant concern given where we live.
- It will encourage children to go to their local park to play sports and meet new friends.
- It will provide a much-needed upgrade to the park and build a stronger sense of community around it.
- It will accommodate some local schools and leagues that are desperate for athletic fields and have nowhere to play.

Tommy's Field is beautiful legacy that will benefit children and families in our district for many generations to come.

Thank you,

Dear Council Member Koretz,

I am a Warner Avenue parent and I live in your district. I SUPPORT the development of Tommy's Field in Westwood Park.

The existing space is unusable for kids to play on in any sort of meaningful way. For decades it has been hard dirt and completely underutilized. Tommy's field will have a low unlocked fence and be accessible for free and unstructured play. It will be safe and durable, rain or shine, and help accommodate the growing need that our schools and leagues have for athletic field space. Its synthetic turf surface will conserve millions of gallons of water, saving precious resources and dollars. This is a wonderful addition to our neighborhood, for everyone.

Tommy Mark was a Warner Avenue Elementary School student, and this field not only honors one of our own but will benefit our entire community for generations to come.

The field will have a low fence, be unlocked and have meaningful hours for free play. It will make much better use of an underutilized space and upgrade this park to the benefit of our entire community.

Thank you,

Dear Council Member Koretz,

I am a Warner Avenue parent and I live in your district. I SUPPORT the development of Tommy's Field in Westwood Park.

The existing space is unusable for kids to play on in any sort of meaningful way. For decades it has been hard dirt and completely underutilized. Tommy's field will have a low unlocked fence and be accessible for free and unstructured play. It will be safe and durable, rain or shine, and help accommodate the growing need that our schools and leagues have for athletic field space. Its synthetic turf surface will conserve millions of gallons of water, saving precious resources and dollars. This is a wonderful addition to our neighborhood, for everyone.

Tommy Mark was a Warner Avenue Elementary School student, and this field not only honors one of our own but will benefit our entire community for generations to come.

Thank you,

Dear Council Member Paul Koretz,

I live in your district and support Tommy's Field in Westwood Park for the following reasons:

- The multipurpose field will accommodate athletic teams of all age groups.
- Our neighborhood has no athletic fields for public use. Given soccer and lacrosse are the fastest growing youth sports in our country we have to update our city parks to support this reality.
- The lights will allow the field to be utilized in the evenings and make better use of the space.
- The safe city-approved synthetic turf can be played on during all weather conditions and will replace the hard dirt and holes that make the field unsafe for any type of meaningful play.
- The field will have a low fence and remain unlocked, providing free and unstructured play for everyone. It will also accommodate teams, schools and leagues that have nowhere in our neighborhood to play.

Tommy's Field will benefit everyone for generations to come and is an important upgrade to our neighborhood.

Dear Council Member Koretz,

I am a Warner Avenue parent and live in your district. I SUPPORT the development of Tommy's Field in Westwood Park.

Tommy's Field will be everyone, and our community is in desperate need of more athletic fields that promote free unstructured play and also accommodate youth teams. The existing space is unusable for kids to play on and has been for decades.

Tommy's Field will help combat current epidemics of obesity and depression. Beautiful fields encourage our youth to get out from behind their screens and engage in healthy activities, like playing sports with friends in their local park.

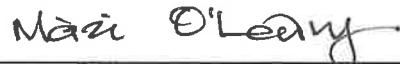

Tommy's Field is a gift to the City of Los Angeles with no strings attached. It will benefit generations of children and families for years to come and significantly upgrades our local park.

Dear Council Member Koretz,

I am a Warner Avenue parent and my family lives in your district. I am very supportive of the development of Tommy's Field in Westwood Park.

This synthetic turf multipurpose field is an important addition to our Westwood neighborhood. The field will be durable and safe, have lights and be perfect for the needs of our growing population. Its synthetic turf will conserve millions of gallons of water and support all of our conservation efforts. Its low fence will ensure free play and public access. The field will encourage kids to get off technology and out into their community park to meet new friends, play and engage in healthy activities.

Tommy Mark was a Warner Avenue Elementary School student, and this field not only honors one of our own, but will benefit generations of children and families to come.

Dear Council Member Paul Koretz,

I am part of the Westwood - UCLA community and am in SUPPORT of Tommy's Field in Westwood Park.

This synthetic multipurpose field with lights will be unlocked and available to the community for free unstructured play. The field will replace a historically hard dirt field with holes and be made of a safe durable non-toxic infill that will increase usage, reduce maintenance and conserve millions of gallons of water. Tommy's field will inspire children and adults to get out from behind their screens and engage with one another in their local park. It will be a great improvement to this park and our neighborhood.

Tommy's Field is a very special gift to the city with funds raised by the community that the park serves. I urge you to support this project.

I am part of the UCLA – Westwood community and I very much SUPPORT Tommy's Field in Westwood Park.

This synthetic multipurpose field with lights will be unlocked and available for free play, and it will foster a stronger sense of community in our very busy city. It will replace a historically hard dirt field with a safe non-toxic surface that requires low maintenance and conserves millions of gallons of water. Its lights will allow for evening play, making the field much more utilized by the community than it is now. Tommy's Field is a gift to the city with funds raised by the community that the park serves, so it doesn't cost the city or its taxpayers anything. This is a very special project that can't be denied.

Thank you,

Dear Council Member Paul Koretz,

I am part of the Westwood - UCLA community and am in SUPPORT of Tommy's Field in Westwood Park.

This synthetic multipurpose field with lights will be unlocked and available to the community for free unstructured play. The field will replace a historically hard dirt field with holes and be made of a safe durable non-toxic infill that will increase usage, reduce maintenance and conserve millions of gallons of water. Tommy's field will inspire children and adults to get out from behind their screens and engage with one another in their local park. It will be a great improvement to this park and our neighborhood.

Tommy's Field is a very special gift to the city with funds raised by the community that the park serves. I urge you to support this project.

Thank you,

Dear Council Member Paul Koretz,

I am part of the UCLA – Westwood community and I very much SUPPORT Tommy's Field in Westwood Park.

This synthetic multipurpose field with lights will be unlocked and available for free play, and it will foster a stronger sense of community in our very busy city. It will replace a historically hard dirt field with a safe non-toxic surface that requires low maintenance and conserves millions of gallons of water. Its lights will allow for evening play, making the field much more utilized by the community than it is now. Tommy's Field is a gift to the city with funds raised by the community that the park serves, so it doesn't cost the city or its taxpayers anything. This is a very special project that can't be denied.

I am part of the UCLA – Westwood community and I very much SUPPORT Tommy's Field in Westwood Park.

This synthetic multipurpose field with lights will be unlocked and available for free play, and it will foster a stronger sense of community in our very busy city. It will replace a historically hard dirt field with a safe non-toxic surface that requires low maintenance and conserves millions of gallons of water. Its lights will allow for evening play, making the field much more utilized by the community than it is now. Tommy's Field is a gift to the city with funds raised by the community that the park serves, so it doesn't cost the city or its taxpayers anything. This is a very special project that can't be denied.

Thank you,

Dear Council Member Paul Koretz,

I am part of the Westwood - UCLA community and am in SUPPORT of Tommy's Field in Westwood Park.

This synthetic multipurpose field with lights will be unlocked and available to the community for free unstructured play. The field will replace a historically hard dirt field with holes and be made of a safe durable non-toxic infill that will increase usage, reduce maintenance and conserve millions of gallons of water. Tommy's field will inspire children and adults to get out from behind their screens and engage with one another in their local park. It will be a great improvement to this park and our neighborhood.

Tommy's Field is a very special gift to the city with funds raised by the community that the park serves. I urge you to support this project.

Dear Council Member Paul Koretz,

I am part of the Westwood - UCLA community and am in SUPPORT of Tommy's Field in Westwood Park.

This synthetic multipurpose field with lights will be unlocked and available to the community for free unstructured play. The field will replace a historically hard dirt field with holes and be made of a safe durable non-toxic infill that will increase usage, reduce maintenance and conserve millions of gallons of water. Tommy's field will inspire children and adults to get out from behind their screens and engage with one another in their local park. It will be a great improvement to this park and our neighborhood.

Tommy's Field is a very special gift to the city with funds raised by the community that the park serves. I urge you to support this project.

Thank you,

Dear Council Member Paul Koretz,

I am part of the UCLA – Westwood community and I very much SUPPORT Tommy's Field in Westwood Park.

This synthetic multipurpose field with lights will be unlocked and available for free play, and it will foster a stronger sense of community in our very busy city. It will replace a historically hard dirt field with a safe non-toxic surface that requires low maintenance and conserves millions of gallons of water. Its lights will allow for evening play, making the field much more utilized by the community than it is now. Tommy's Field is a gift to the city with funds raised by the community that the park serves, so it doesn't cost the city or its taxpayers anything. This is a very special project that can't be denied.

Jasmine.shamolian@lacity.org

Dear Council Member Paul Koretz,

I live in your district and support Tommy's Field in Westwood Park for the following reasons:

- The multipurpose field will accommodate athletic teams of all age groups.
- Our neighborhood has no athletic fields for public use. Given soccer and lacrosse are the fastest growing youth sports in our country we have to update our city parks to support this reality.
- The lights will allow the field to be utilized in the evenings and make better use of the space.
- The safe city-approved synthetic turf can be played on during all weather conditions and will replace the hard dirt and holes that make the field unsafe for any type of meaningful play.
- The field will have a low fence and remain unlocked, providing free and unstructured play for everyone. It will also accommodate teams, schools and leagues that have nowhere in our neighborhood to play.

Tommy's Field will benefit everyone for generations to come and is an important upgrade to our neighborhood.

Thank you,

Dear Council Member Paul Koretz,

I fully SUPPORT Tommy's Field in Westwood Park. Our neighborhood has no athletic fields for kids and adults to play on and it is time to upgrade our park infrastructure to accommodate our growing population and trends in field sports. Tommy's field will be unlocked and designate meaningful free play hours every day, which will encourage unstructured play and build a stronger sense of community in our neighborhood.

It is very important to me that this project be approved.

Dear Council Member Paul Koretz,

I am part of the UCLA – Westwood community and I SUPPORT Tommy's Field in Westwood Park.

This field will be unlocked and available for free play, and it will foster a sense of community in our very busy city. It will help combat current epidemics of depression, anxiety, addiction and obesity by getting everyone out from behind their screens and engaged in athletic activity.

Tommy's Field is a gift to the city and will benefit our community for generations to come.

Thank you,

Dear Council Member Paul Koretz,

I am part of the UCLA – Westwood community and very much SUPPORT Tommy's Field in Westwood Park.

This synthetic multipurpose field with lights will be unlocked and available for free play, and it will be for everyone in our community to enjoy. It will replace a historically hard dirt field with a safe non-toxic surface that requires low maintenance and conserves millions of gallons of water. Its lights will allow for evening play, making the field much better utilized by the community and keeping the park well-lit and safe. This field will inspire children and adults to get out from behind their screens and engage with one another in their local park.

Tommy's Field is a very special gift to the city with funds raised by the community that the park serves. Please approve this project.

Thank you,

Dear Council Member Paul Koretz,

I am part of the Westwood - UCLA community and am in SUPPORT of Tommy's Field in Westwood Park.

This synthetic multipurpose field with lights will be unlocked and available to the community for free unstructured play. The field will replace a historically hard dirt field with holes and be made of a safe durable non-toxic infill that will increase usage, reduce maintenance and conserve millions of gallons of water. Tommy's field will inspire children and adults to get out from behind their screens and engage with one another in their local park. It will be a great improvement to this park and our neighborhood.

Tommy's Field is a very special gift to the city with funds raised by the community that the park serves. I urge you to support this project.

Dear Council Member Paul Koretz,

I am part of the UCLA – Westwood community and very much SUPPORT Tommy's Field in Westwood Park.

This synthetic multipurpose field with lights will be unlocked and available for free play, and it will be for everyone in our community to enjoy. It will replace a historically hard dirt field with a safe non-toxic surface that requires low maintenance and conserves millions of gallons of water. Its lights will allow for evening play, making the field much better utilized by the community and keeping the park well-lit and safe. This field will inspire children and adults to get out from behind their screens and engage with one another in their local park.

Tommy's Field is a very special gift to the city with funds raised by the community that the park serves. Please approve this project.

Thank you,

Dear Council Member Paul Koretz,

I am part of the UCLA – Westwood community and I SUPPORT Tommy's Field in Westwood Park.

This field will be unlocked and available for free play, and it will foster a sense of community in our very busy city. It will help combat current epidemics of depression, anxiety, addiction and obesity by getting everyone out from behind their screens and engaged in athletic activity.

Tommy's Field is a gift to the city and will benefit our community for generations to come.

Thank you,

Jasmine.shamolian@lacity.org

Dear Council Member Paul Koretz,

I live in your district and support Tommy's Field in Westwood Park for the following reasons:

- The multipurpose field will accommodate athletic teams of all age groups.
- Our neighborhood has no athletic fields for public use. Given soccer and lacrosse are the fastest growing youth sports in our country we have to update our city parks to support this reality.
- The lights will allow the field to be utilized in the evenings and make better use of the space.
- The safe city-approved synthetic turf can be played on during all weather conditions and will replace the hard dirt and holes that make the field unsafe for any type of meaningful play.
- The field will have a low fence and remain unlocked, providing free and unstructured play for everyone. It will also accommodate teams, schools and leagues that have nowhere in our neighborhood to play.

Tommy's Field will benefit everyone for generations to come and is an important upgrade to our neighborhood.

Thank you,

Dear Council Member Paul Koretz,

I live in your district and support Tommy's Field in Westwood Park for the following reasons:

- The multipurpose field will accommodate athletic teams of all age groups.
- Our neighborhood has no athletic fields for public use. Given soccer and lacrosse are the fastest growing youth sports in our country we have to update our city parks to support this reality.
- The lights will allow the field to be utilized in the evenings and make better use of the space.
- The safe city-approved synthetic turf can be played on during all weather conditions and will replace the hard dirt and holes that make the field unsafe for any type of meaningful play.
- The field will have a low fence and remain unlocked, providing free and unstructured play for everyone. It will also accommodate teams, schools and leagues that have nowhere in our neighborhood to play.

Tommy's Field will benefit everyone for generations to come and is an important upgrade to our neighborhood.

Thank you,

Dear Council Member Koretz,

I live in your district and I SUPPORT the development of Tommy's Field in Westwood Park.

Tommy's Field will be everyone, and our community is in desperate need of more athletic fields that promote free unstructured play and also accommodate youth teams. The existing space is unusable for kids to play on and has been for decades.

Tommy's Field will help combat current epidemics of obesity and depression. Beautiful fields encourage our youth to get out from behind their screens and engage in healthy activities, like playing sports with friends in their local park.

Tommy's Field is a gift to the City of Los Angeles with no strings attached. It will benefit generations of children and families for years to come and significantly upgrades our local park.

Thank you,

Dear Council Member Paul Koretz,

I am part of the UCLA – Westwood community and I SUPPORT Tommy's Field in Westwood Park.

This field will be unlocked and available for free play, and it will foster a sense of community in our very busy city. It will help combat current epidemics of depression, anxiety, addiction and obesity by getting everyone out from behind their screens and engaged in athletic activity.

Tommy's Field is a gift to the city and will benefit our community for generations to come.
